POSTMASTER: Send Form 3579 to
Box 1854, Brown University, Provi-
dence 12, R. I.

Published October, November, December,
January, February, March, April, May, and
July by Brown University, Providence 12,
R. I. Second class postage paid at Provi-
dence, R. I. and at additional mailing of-
fices. Member, American Alumni Council.
The Magazine is sent to all Brown alumni.

JANUARY 1963 VOL. LXIII NO. 4

In This Issue:

The Bicentennial Fund: Where Do We Stand?	4
College Hill Spectacular: the New Library	6
Achievement Lets Brown Raise Its Sights	8
A Center for the Creative Arts at Brown	14
December Was a Winning Month in Sports	18
A Final Tribute to the 1962 Gridiron Team	21
Brunonian Winners in November Elections	25
For the Class of 1962, a Special Report	36

FRONT COVER

A MILLION DOLLARS from the Kellogg Foundation has spurred plans for a new Bio-Medical Center at Brown University and the unique program of medical education which will have its headquarters there. The drawing is, of course, only "an artist's concept" for problems of site and architecture remain to be worked out. The cover is appropriate for an issue devoted to an intensive examination of Brown's Bicentennial enterprise.

Parents cautioned . . .

THIS FESTIVE OCCASION is for the children," said the announcement from the Brown Faculty Club about the annual Christmas Party for "Faculty Children." A notice, pretty much in sickening baby talk, added: "Parents should be seen and not heard." First of several ground rules was one which instructed that "Children in swaddling clothes must not be left alone in the manger."

► PROMPTED by our story of the boy playing the part of the innkeeper in the Christmas pageant, Miss Dorothy Walter offered a couple more. (She's Pembroke '12 and niece of the late Prof. Herbert E. Walter.)

In her niece's family, the children were acting out the Christmas story. They'd been given no parts to learn—just the "story line," around which they were improvising their own dialogue. The following exchange took place between Mary and Joseph. Mary: "I'm awfully tired. I can't go another step." Joseph: "You need a tranquilizer."

Miss Walter also recalled a story told by Frances Parkinson Keyes of a family recital of the happenings at Bethlehem. One child listened, sympathetic about the troubles of Mary and Joseph when there was no room in the inn. The narrator explained how the Holy Family had to take refuge in the stable, where the Baby was born in the manger. But the listener just could not understand. "Why," she asked, "why didn't they go to grandma's?"

► COMPANION ITEM is passed on by William H. Edwards '19 to the story of the tourist who found the Acropolis too tough a climb to reach on a hot summer's day. The mother of a Brunonian was at Delphi, on her way to the shrine of Apollo. She, too, found the uphill journey taxing and ejaculated: "Why did Apollo have to have his Temple on top of such an ungodly hill?"

At that moment, there was a sharp clap of thunder and a flash of lightning. "Oh, excuse me!" said the climber.

Poolside variant . . .

► THE USUAL EXCHANGE of cheers at the end of an athletic event becomes rather perfunctory on occasion, but not so in Colgate Hoyt Pool in mid-December. True, the visiting swimmers were content with a "Penn! Rah, rah! Brown!" And we were wondering why the Brown victors were slow with their reply. It came, after a conference, in song: "Penn! We wish you a Merry Christmas and a Happy New Year!"

► We wondered if there were any O'Henry overtones in a notice posted on a bulletin board in the Brown Union just before the holidays: "For sale. Guitar in perfect condition. The ideal Christmas gift."

► ALERT TO OUR LAPSE in speaking of Profs. Edward A. and Lillian D. Bloom as "The Booms," Watson Smith '19 writes from Tucson that he is gratified that "the Percussion Problem at Brown has been

ameliorated." At least one Boom has thus been gently lowered on the careless editor.

► ONE OF ROBERT MORSE's inheritances on moving into the Dean's office was the chairmanship of the Housing Committee. It was inevitable, then, that some of the recommendations adopted by this group should become known as the Morse Code.

► "NOW WE ARE ABANDONING our University Freshman test," said the *Daily Texan* of the University of Texas in a blooper since quoted in a number of spots. "We shall use the College Broads altogether."

► ROBERT FROST, speaking at Mount Holyoke's 125th anniversary after his return from Russia, said: "The Russians are ahead of us in birches."

And the following Frost statement is being printed in a number of alumni magazines these days:

"Don't join too many gangs.
Join few if any.
Join the United States
And join the family—
And not much in between
Unless a college."

► "CHANCES ARE you've heard this one," writes Ralph Renzi, Editor of the *Williams Alumni Review*, "but it's new to me: the youngster who sang 'Silent Night, Holy Night, Brown University, Mother and Child.'"

► A PIECE OF COAL which we sent to New-castle was a limerick for David McCord, before his retirement as Director of the Harvard Fund. In it, we had sought to suggest the far-reaching effectiveness of his appeals:

A Harvard alumnus named Swift
By a head-hunting native was biffed.
He sent the head for'd
To David McCord.
It upped the per capita gift.

When McCord used this in one of his Fund mailing pieces, a gentleman from New York by the name of Harvey I. Titus wrote a most exquisite rejoinder:

Herewith this additional life
For the sake of our graduate Swift,
Who, if he were living,
Would gladly be giving
In lieu of his capital gift.

► JEFFERY ORDOVER was writing about the days of the Cuban Crisis in his column in

the Supplement of the *Brown Daily Herald*. "When the news broke, life at Brown was going on pretty much close to the norm," he said. "Then the President appeared on television, and the reign of terror began. The phone company was flooded with long distance calls, students trying to reach their families, families trying to reach their children:

" 'The world may end tomorrow, Ma.'

" 'Did you take your vitamins?'

" 'The President sounded really serious, Ma.'

" 'If you worked harder, one day you could be President.'

" 'They say that the rain of fallout will get us if the blast doesn't.'

" 'Just be sure to buy a new pair of rubbers, like I told you.'

Apology to spinsters . . .

► EVERETT A. BOWEN '92 was at Brown about the time the linguists changed from the English pronunciation of Latin to that which they surmised the Romans had used. Nor was this the only innovation, for three women students had been admitted to the instruction on College Hill for the first time. (Miss Mary Woolley, later President of Mount Holyoke, was one of them.)

"When Professor Williams discussed the new pronunciation one day," Bowen recalls, "he looked benignly at the three young ladies but said to everyone else: 'Young gentlemen, please note that we used to say in this recitation, *Inbet vicissim*. But now we pronounce it *You bet we kiss 'em*.'"

"One of the sensitive girls, in the primness of her maidenhood, took the jest as a slur. She went to President Andrews, who compelled the Professor to apologize to the three young spinsters."

► SO MANY FOOTBALL SATURDAYS last fall were fit "only for ducks" that someone brought a bird to the Brown Stadium on Homecoming. It was at large in a navigable lake on the running track between the Brown bench and the stands.

One kind-hearted spectator thought it cruel to have the bird so treated, and she left her seat to tell one of the blue-uniformed chaps what she thought of the gag. He should do something. When it came the right moment for him to speak, he explained his disinterest: "Madam, I'm sorry, but I'm a bus driver."

BUSTER

THE GREAT CHALLENGE

Where Do We Stand?

RIGHT FROM THE OUTSET, President Keeney had purposely emphasized the challenge aspect of the grant from the Ford Foundation. When the news first broke in June, 1961, he made this point at the start of his press conference, where television and radio teams were recording his comments and reporters were taking their notes. He said Brown University had been presented with "the greatest challenge and opportunity in its history."

"The \$7,500,000 that the Foundation has offered us is not money in the bag," he pointed out, fearful that those who read merely headlines or heard the Victory Bell on U.H. might assume it was an outright gift. "We can obtain the full amount only if we succeed during the three-year period in obtaining \$15,000,000 in matching funds from eligible sources. These eligible sources include our own alumni and alumnae, other private foundations, business and industrial donors, and friends of the University. They do not include the U.S. Government, the Ford Foundation itself or any of the grant-making agencies formed with Ford Foundation money."

With the Emblem of Challenge

Just before the end of the year, the alumni of Brown were reminded of The Challenge in a detailed brochure of information which had on its cover the dramatic symbol of a gauntlet. If the gauntlet thus employed as a token was a medieval work of art, the challenge to the University was modern and definite. The book provided a report of progress as the halfway stage of the three-year challenge period drew

nearer. It provided, too, a statement of the revised goals, carefully set to embrace the new opportunity.

Alumni did not need to be told they had just completed a great effort in 1961, the meeting of the original objective of the Bicentennial Program. They had helped the University reach the \$15,000,000 goal of the thorough, whole-hearted Bicentennial Campaign. "Perhaps," said Dr. Keeney, "there are some who are tempted to feel that Brown is ready for a letdown. I can sympathize with them. But the fact of the matter is that the capital gifts campaign has always been considered only as a beginning for a long-range period of intensive development for the University."

"Even without the Ford Foundation grant, we would have faced the necessity for a continued and accelerated advance. With the Ford grant, we have a most welcome stimulus for the achievement of that advance. Obviously, we have set ourselves a task that will demand continued devoted effort from everyone concerned in any way with Brown's development. The task will be difficult, but at the same time vastly stimulating. It will call for courage, enthusiasm, and imagination."

Their Vehicle: the University Fund

Did this mean a brand new campaign of the same sort just completed? Not at all. Alumni were still making payments on pledges to the Bicentennial Program. As those pledges were honored, the Brown University Fund has become the Brown man's vehicle for helping to meet the Ford Challenge. But, in the words of Daniel W. Earle '34, Development Director, "the Brown University Fund takes on new importance as the University musters total support from all possible sources to reach the goal in time." Richard L. Walsh '37, Washington attorney, is the new National Chairman of the BUF.

The brochure on The Challenge could not have been more timely. For anyone on the staff at Brown, the questions most frequently asked all fall had been: "Where do we stand?" "How are we doing?" The first statement one saw, on opening the brochure, provided answers in a general summation by President Keeney:

"I am pleased to report to you that the University's Bicentennial Development Program has surpassed its original \$30,000,000 objective fully two years ahead of the schedule first established by the Corporation. (Of this amount, a little more than half, \$15,100,000, had been sought in the capital gifts phase of the Program.)

"This major achievement," the President continued, "is one in which we can all rejoice. It is the largest such achievement in Brown's long history. Not only does it testify eloquently to the dedication and generosity of the University's family of alumni, parents, and friends; but it also underscores clearly what we have all known for quite some time: that the Brown of today is determined to maintain a position of educational excellence which is second to none. Indeed, it is the steadfast commitment to this position on the part of both the University and its family which is directly responsible for the exciting opportunity which now confronts us."

Three Major Implications of the Grant

When the Ford Foundation in 1961 included Brown among six universities selected to receive a massive challenge grant, this action made it possible "for us to plan our future much more broadly." The liberal terms of the grant allowed Brown to use the monies earned by qualifying gifts in whatever manner it deems advisable. Calling the implications of

this unusual offer "significant." Dr. Keeney said it presented the following opportunities:

"First: It assures completely the success of the original Bicentennial Development Program and permits the University to expand this program considerably so that Brown's entry into its third century of service in 1964 can be celebrated with what is perhaps the most dramatic achievement in its history.

"Second: Even more importantly, it enables the University to accomplish in the space of less than four years a program of educational development which, under ordinary circumstances, would have required at least a full decade to complete. Third: And finally, it makes possible for the Corporation to begin charting now the course which Brown must follow in the years to come if we are to maintain and increase our coveted educational stature. The fact that the Ford Foundation has deliberately come forward with such a challenge at this time is conclusive evidence that the Foundation shares our confidence."

Dr. Keeney then announced that the University has secured more than \$30,000,000 toward its new and larger development goal of \$46,900,000. It had, moreover, earned more than half of the Ford matching money.

Back, then, to the question: Where do we stand?

In 1959, when the Corporation of the University completed its preliminary studies for the Bicentennial Development Program and announced the decision to seek a total of \$30,000,000 to meet Brown's most critical needs, a specific time-schedule was adopted. This schedule called for: 1) an intensive fund-raising campaign for 1960-61 designed to obtain the money for nine major construction projects; and 2) the launching of a stepped-up bequest program for endowment. This latter effort was to continue through the Bicentennial year of 1964.

Recognizing the Successes Thus Far

"At this moment," said the brochure, "both of these efforts have exceeded even the most optimistic expectations. Not only has the University succeeded in obtaining the funds for all of its original building objectives, but its program for additional endowment is also running well ahead of schedule." (Incidentally, one major newspaper story on the announcement spoke in terms of far less accomplishment, an interpretation of its own which ignored positive statements to the contrary, documented in both the brochure and the University's press release on the publication.)

The brochure went to alumni and alumnae throughout the country in preparation for the 1963 annual giving campaign of the Brown University Fund and the Pembroke College Fund. It reported that \$8,304,000 in matching money must be raised in the next 19 months if the Ford challenge terms are to be met by the expiration date of June 30, 1964. (The brochure's summary could not reflect any "year-end" gifts to Brown, nor could we, at press time, wait for any amended figures, even if they showed any substantial changes upward.)

Is there other significance in the Ford Foundation's challenge grant to Brown? One answer came in December in a statement which bore the signatures of the Chancellor of the University, Harold B. Tanner '09, and the Chairman of the Bicentennial Development Program, Donald G. Millar '19:

"The Foundation has vividly expressed its belief in the objectives of the University and has indicated clearly that it believes Brown's administration, faculty, alumni, and friends

are capable of carrying out those objectives. Therefore, unless the University family proves by its participation in this effort that the Foundation's confidence was justified, Brown must face the possibility of closing the door to all future support of this kind. If we succeed now, we will encourage similar help in the future; if we fail, we will have lost or seriously damaged our right to seek the support of others.

"We have no other course before us but to succeed."

So far, so very good

WHEN THE FORD FOUNDATION made its proposal to aid Brown University under its Special Program in Education in 1961, the following sequence of payments was suggested:

That fall a first payment of \$1,890,000 was made. The remainder of the \$7,500,000 grant was to be paid in annual installments as matching funds were accumulated. If, by June 30, 1962, Brown University raised more than twice that amount (\$3,780,000), the Foundation would turn over to Brown half the excess. By that first deadline, Brown had received funds eligible for matching amounting to \$3,847,985. The University was thus on schedule as the last fiscal year ended.

To stay on schedule on June 30, 1963, Brown should have raised another \$5,706,000 (or \$9,846,000 in the two years). This would be matched by an additional \$2,853,000 from the Foundation.

To complete its undertaking by June 30, 1964, Brown will have to add another \$5,514,000 (making the total \$15,000,000). This would be matched by an additional \$2,757,000 from the Foundation, rounding off its \$7,500,000.

"If we succeed in matching the money," Dr. Keeney told the Faculty that first summer, "the present plans of the Foundation are to make another grant immediately on whatever terms seem useful to increase the flow of money to Brown. If we fail, we will get what we have matched, but the Foundation will not make another similar grant to us, ever." In his press conference at that time, however, Dr. Keeney had said: "If I were not confident we could raise this sum of money, I would have asked for a different sum."

Any consideration of the program beyond the first year, Dr. Keeney said, would have to be viewed in the light of Brown's success in meeting its fund-raising obligations as provided in the agreement with the Foundation. The extent of those obligations was suggested in a table at the time which covered the University's projected gift and grant needs for the next three years:

Year	From "Matching" Sources*	From Ford Foundation	From Non-Matching Sources	Total
1961-62	\$ 3,780,000	\$1,890,000	\$ 1,845,000	\$ 7,515,000
1962-63	5,706,000	2,853,000	2,366,000	10,925,000
1963-64	5,514,000	2,757,000	6,468,000	14,739,000
3-Year Totals:	\$15,000,000	\$7,500,000	\$10,679,000	\$33,179,000

* Includes contributions from alumni, alumnae, foundations (exclusive of the Ford Foundation), corporations, business, etc. A later table shows how the picture has improved since that projection. The current figures appear on page 15 of this issue

PROGRESS ON THE NEW LIBRARY

THE GIANT CRANE is the first of its kind
to be used on a construction project in Rhode Island.

THE PHOTOGRAPHER stood halfway down the hill on George St. to take this general view of Library construction.

FROM THE TOP OF THE JOHN HAY, a December "record shot" of the new Library construction.

From Bicentennial Gifts

Colossus on College Hill

JANUARY 1963

A Report Full of Pride:

BICENTENNIAL ACHIEVEMENT

PROGRESS of the Bicentennial Development Program to date has been such that Brown could move forward rapidly with new construction. Six of the nine projects included in the prospectus are already complete and in use.

The new Biology Building has long been considered one of the University's most urgent needs. This four-story structure situated on Brown St. between Waterman and Angell was dedicated in the fall and has settled down to its mission. The building more than doubles the amount of space previously available to Brown's Department of Biology, always famous and developed further in the last two decades to hold its rank among the most noted in America.

With the completion of the George V. Meehan Auditorium, the University has a handsome, practical structure large enough to accommodate its entire student enrollment and Faculty. The Auditorium, the generous gift of the Meehan Foundation, also provides an ice rink, and the indoor arena sees uninterrupted use for skating and hockey from early morning to late at night. (It was agreeable to see the Meehan family taking quiet satisfaction as modest spectators at early-season hockey games this winter.)

Provision of the rink has corrected one of the most conspicuous deficiencies in Brown's athletic facilities. The site of the auditorium-arena is on the recently acquired Aldrich-Dexter Field which already has fulfilled its hopes for Varsity and informal athletes. Here the University plans to construct an entirely new physical education and athletic plant. Alumni, of course, have been quick to point out that the Bicentennial goals, even as restated, do not specifically provide for such construction at any early date, but Aldrich-Dexter remains the center of lively hopes.

Serving Their Vital Purposes

In May of last year, the Engineering Laboratory was dedicated. It is a specially reinforced two-story structure containing equipment necessary for Brown's teaching and research programs in engineering. The programs are diverse, ever growing in importance and strength in a vital Division of the University. The Laboratory is the first component of the proposed Physical Science and Engineering complex which

eventually will contain at least six separate buildings, the brochure tells us.

Brown's new Computing Laboratory, the gift of Thomas J. Watson, Jr., '37 and his mother, has been in operation for about two years. The building contains an extensive array of computing equipment which not only greatly increases the efficiency and scope of the University's research projects in many fields, but which also has revolutionized and vastly improved Brown's own extensive records system. It finds use in instruction as well, of course. Moreover, as a community service, the University has been able to make the Center's facilities and staff available to business and industry.

The rebuilding of Hope College was the first Bicentennial project to be completed. Although the structure has been renovated to meet modern dormitory standards, it retains its built-in traditions. It retains the charm and grace which have made Hope a College Hill landmark for more than a century and a half.

At Pembroke, the new Quadrangle just off Meeting St. has made it possible to eliminate much of the sub-standard housing which has been a cause of University concern for many years. With funds received through the Bicentennial Program and additional Federal loans, Brown has been able to erect the first two units, put them to much-appreciated use, and to make headway on further new construction. The second two units will round out the four-unit residence quadrangle for Pembroke College.

For One of New England's Finest

In addition to the six completed Bicentennial construction projects, two more are currently in progress. The new University Library has a target date of 1964, and the contractor took advantage of favorable weather during the summer and fall to push the project along rapidly. It is dramatic as it rises at the top of College Hill, just across from the old John Hay Library. For many years, the University Library staff has been resourceful in "making do" with inadequate accommodations. Starting with the Bicentennial year, the new structure will generously house a collection for student and Faculty use which is now surpassed in New England only by the Yale and Harvard Libraries.

Construction has not started, of course, on the proposed Research Center for Physical Sciences and Engineering, which will be the dominant element in the complex devoted to such activities. The Center will become the principal facility for all of the University's important work in engineering, mathematics, physics, chemistry, and related sciences. The brochure says, in guarded fashion, that "the University is now completing final construction arrangements." Despite a neighborhood protest, the City of Providence gave its official blessing, both by permitting the closing of a block of Manning St. and authorizing construction in accord with one of three University proposals. The University marshalled impressive support for its case, but some of the protesting neighbors have carried their appeal to court.

Thus, of all the capital building projects included in the original Bicentennial Program, only one has not reached the stage of achievement, construction, or of being "ready to go." This is the proposed Science Library. Its delay, the brochure says, is primarily due to a revision and expansion of the University's plans for its total library system. It had originally been spoken of as part of the Physical Sciences-Engineering Complex.

FOR CREATIVE ARTS, the University's proposed Center will be constructed in stages. One concept of the Center is shown above.

How Brown's Sights Have Been Raised

JANUARY 1963

AN IMPORTANT EFFECT of the Ford challenge grant to Brown has been to raise the original \$30,000,000 goal of the Bicentennial Development Program to a new goal of \$46,900,000. The target date is still June 30, 1964. (Less than three months later Brown will start the academic year in which it will celebrate the Bicentennial of its founding.) Of the \$46,900,000, \$20,300,000 will be used for endowment and current operations, and \$26,600,000 for capital construction needs.

"I wish," said Development Director Earle, "that we might make the public and the alumni realize how much of all that money is going toward educational programs—toward instruction and research, or (in its final analysis) for the benefit of the people a university is dedicated to serve." The thoughtful reader will realize that such is the case: all else is auxiliary and supporting.

CONFIDENT CHAIRMAN: The Bicenennial's Donald G. Millar '19.

More Than Meets the Eye

Nevertheless, one sees the new buildings. They stand there, already in use. They are evidence more easy to comprehend as assurance of progress. The brochure reminds one that all except two of the buildings in the original Bicenennial prospectus either have been completed or are under progress. As one climbs College Hill today, one encounters the vast industry which the new Library construction involves; one sees the giant crane dominating the complex of rising cement. Here is the "big spectacular" of them all.

The J. Walter Wilson Biology Laboratory, completed and dedicated, hums with activity. So do the earlier Frank John Prince Engineering Laboratory, the George V. Meehan Auditorium (recently host to its second Christmas hockey tourney), and the Brown University Computing Center. Morriss and Champlin residence halls at Pembroke have long been in use, with two companion units far advanced in construction. First of all Bicenennial projects was the reconstruction of Hope College.

The brochure reminds us that all except two of the buildings listed in the original Bicenennial Development Program have thus been completed or are under construction. The exceptions are the proposed multi-story building for Physics and Engineering and a Science Library. The former has been delayed by a zoning problem, though most hurdles have been overcome; the latter project is awaiting the outcome of a restudy of over-all library facilities for the University.

Add Four More Major Projects

Listed in the brochure are four planned building projects that Brown has now been able to include within the revised Bicenennial prospectus as a result of the Ford challenge grant. The new projects and their estimated costs include a Bio-Medical Center Complex (\$5,684,000), the first unit of a Humanities Center (\$996,000), the first unit of a Creative Arts Center (\$1,134,000), and a dormitory for men (\$790,000).

The brochure contained an artist's "conceptions" of the first three projects. If the renderings seem vague and non-committal in some details, it is because they had to be: architectural plans and specific sites for these buildings have not yet been finally determined. But this is not to say that careful preparation for them has not been made. Months of study have already gone into the survey of requirements and steps to meet them.

At hand, for example, is the elaborate work program developed with respect to the Medical Center. If it is to be ready on schedule as the first students move along in the new six-year medical education program, the planning could not wait. This study has been completed by Lester Gorsline Associates, planning consultants from Tiburon, Calif., who have had outstanding success as advisors on medical education and hospital facilities. They are not, however, narrow specialists, and they are under contract again to direct the pre-architectural planning for the Creative Arts Center, with its provision for art, music, and theater.

Not all 'bricks and mortar'

FIVE MAJOR OBJECTIVES and programs are listed in The Challenge brochure as warranting special support in the "endowment and current operations" section of the Bicenennial goals:

1) To maintain Faculty strength and quality. Faculty salaries are to be increased. A portion of the new endowment income will be set aside for the express purpose of attracting leading scholars in selected fields.

2) A program in medical education, based on an integrated six-year curriculum, has already been announced. Its first students will enroll in the fall of 1963, the pioneer Class in this unique undertaking.

3) Other new projects, already under way or soon to be initiated, include the awarding of summer stipends to humanists and social scientists, area study programs (Latin American Studies and Near and Middle East Studies, for example), administrative internships, establishment of an enlarged but still modest University Press, an augmented lecture program, and a new approach to the improvement of instruction in writing.

4) At least \$1,000,000 is to be added to the permanent Library endowment to provide assured support for a number of library services. An item here will be the complete cataloguing of the superlative collection of Americana in the John Carter Brown Library.

5) The endowment for scholarships and fellowships is to be significantly increased.

The brochure writer felt that the University's progress toward its endowment objectives had been just as impressive as its other gains. He wrote: "Even though the program has two more years to run, the considerable endowment gains to date have brought about a marked strengthening of the Brown educational program. Already noticeable improvement has been made in the University's Faculty salary scale (the instructional budget has risen from \$4,360,918 to \$8,223,700 since 1958 for an increase of 188%), in additional scholarship aid (up 22% since 1958), and in the recruitment of new Faculty members of top-ranking quality."

Needs No Longer Excluded

WHEN BROWN set its sights on \$30,000,000 in its original Bicentennial Development Program, there were a number of needs which had to be excluded from the prospectus covered by that sum, simply because the funds for them did not seem to exist. With the extension of the Program to \$46,900,000, it can now embrace those other needs, which were "almost as compelling" as the first priorities.

Initially set at \$15,000,000, the endowment and current operations phase of the Bicentennial Program can now be lifted to \$20,300,000. Of prime importance to the Corporation here is the maintenance of Faculty strength.

President Keeney has said that Faculty salaries at Brown are sufficiently high so that "no serious morale problem exists." Nevertheless, it is acknowledged that there are still more than 20 American institutions which can equal or outbid Brown within their normal pay scales. To keep Brown competitive, the Corporation proposes to increase Faculty salaries by an average of at least 30%. New endowment funds, moreover, will be set aside expressly to attract key leaders in certain special fields.

The brochure on *The Challenge*, paying its tribute to the outstanding quality of the Brown Faculty at present, pointed to the fact that 21 of its members have received Guggenheim Fellowships within the last three years. "In one of these three years, only one American University had a higher Faculty award ratio," the brochure said. "In the other two years, Brown was first."

Where the Medical Program Is Unique

Bicentennial funds will make it possible to launch several new educational programs at Brown. Perhaps the most ambitious will be the Special Program in the Basic Medical Sciences, for which enrollment will begin in the fall of 1963. Because of discussion of the program on page 11 of this magazine, it is not necessary to go into much detail here. Briefly, however, the Brown curriculum finds its uniqueness in the fact that its six-year curriculum will provide a kind of intensive liberal arts and scientific background which the traditional six-year medical program cannot offer.

Instead of the customary four-year undergraduate program plus a two-year medical school program, Brown's curriculum will more nearly resemble a two-year four-year arrangement, in which the upperclass and pre-clinical years will be closely integrated. Sponsors of the Brown program believe a student will be able to move toward either a Ph.D. or M.D. degree better equipped and without a significant loss of time. He will start on this curriculum in his Freshman year.

Planners for the medical program have drawn up their detailed time and work schedule covering such topics as educational and space matters, funding and public relations, physical planning, construction, personnel procurement, use of existing buildings, and the student's progress through the curriculum.

Another beneficiary of the increased endowment and current operations funds is the Professor in the Humanities. Already Brown has made its initial grants for summer stipends to the humanists, in an attempt to redress the imbalance between them and the colleagues in other disciplines. Scientists and mathematicians have had little trouble in gaining summer stipends for their research from one source or another. This has been fine for them, but it has had one result which was beginning to have serious implications: it was making the humanities and social studies less attractive to the more able people, who were being drawn into the other fields. A special fund has been set up (and will be augmented in future) which is aiding the humanist and social scientist to enjoy the privileges their colleagues have enjoyed during the summer recess. Applications are now being received at Brown for the second summer of such stipends.

Latin America and the Middle East

Brown is also developing new programs in so-called Area Studies. One of these is in Latin-American Studies, while a similar effort deals with the Near East and Middle East. Members of the Faculty have traveled to the regions concerned to make preliminary contacts, finding most favorable responses. Bicentennial funds have been earmarked for these new programs.

The University has some peculiar resources which give basis for its move into these Area Studies, both in Faculty personnel, in library collections, and in certain laboratories. *The Challenge* brochure made this comment: "Although some programs in both Latin-American Studies and in Near and Middle East Studies exist currently at other institutions, there is the conviction that Brown has an educational approach and impressive resources which would allow it to create an international studies program of a calibre which is not now available anywhere." Brown's highly effective project in Slavic Studies is cited as a case in point.

A start has also been made at Brown, through preliminary foundation support, in a program of administrative internships and study. Its purpose is to assure a continuing supply of competent administrators, not only for this University but for other institutions as well. Bicentennial funds will permit a continuance and extension of this work and some related projects.

Are there better ways of teaching a student to write? Brown believes and proposes to undertake at least one new approach. Other projects which do not call for large budgets but are important in the University's planning call for a modest University Press (to continue and expand Brown's publication program on a more practical basis), an enlarged program of public lectures, and a new experiment in instruction.

Brown also needs, says the Bicentennial spokesman, to establish a special fund for vital research which cannot be underwritten by Federal funds or corporation gifts. Further

support is also enlisted for research already in progress in the Brown Institute for the Health Sciences (research on aging is one example), for the development of studies in Skin Biology (where Brown biologists are already among the world's leaders), and a special Materials Research program in the applied physical sciences and mathematics.

Leading from Strength

To aid its libraries, Brown proposes to add at least \$1,000,000 to its permanent library endowment. The fact that its endowed funds for this purpose are small has not been generally appreciated, because the University's library expenditures have ranked among the top seven institutions in the nation (\$170 per student annually). Such support has had to come from the annual operating budget of the University, a situation "both precarious and unwise." This situation would be eased considerably by the allocation of Bicentennial endowment gifts. A second library project would aid the John Carter Brown Library, which has not been able to find money for the complete cataloguing its eminence should long since have warranted.

One of the frankest statements in *The Challenge* brochure deals with the matter of scholarships and fellowships. In this area, Brown seeks to place itself in a stronger competitive position. "At present, the University awards financial aid to approximately the same percentage of its students as do the other Ivy League institutions. But unfortunately its average award-per-student is uncomfortably lower (\$838 as compared to \$1,100). Added to this is the fact that of the \$540,000 which the University spends on undergraduate scholarships, only \$150,000 is provided by endowment income."

The careful reader will have discovered that the Bicentennial Development Program has far more to it than "bricks and mortar."

Why not Humanities, too?

THE CASE for the Humanities Building is well presented in *The Challenge* brochure, which explained how funds for the humanist have not so readily been available as for his colleagues in the sciences. (Some of this was brought out in the references to proposed summer stipends for Faculty in the humanities and social studies.) The brochure had this to say about the matter:

"As is so often the case at the modern university, the physical needs of the humanities have had to give way to the sciences, a circumstance which has occurred only because of the rapid expansion of the nation's scientific knowledge. Such new knowledge has demanded a massive investment in physical resources. (Moreover, with public attention focussed on defense needs and other scientific activity vis-à-vis the Russians, higher education's contributions in science and technology have been more easily dramatized, appreciated, and supported.)

"However, Brown has no intention of permitting the humanities to suffer at the expense of its programs in science and mathematics. Until now, the humanities program has been able to function at a highly proficient level, even though it is located in several buildings scattered across the Campus.

FOR THE HUMANITIES: One suggested treatment of the proposed building, a new Bicentennial project.

As the scope of its work has increased, however, the need for additional classrooms, lecture and office space has become quite obvious." As an arm of the Liberal Arts, such activity has been central to the educational purpose of Brown University.

Specifically, the Corporation now proposes to meet this need: A special Humanities Center will be built. With funds from the Bicentennial Development Program, the first unit of such a center will be provided, at a cost of just under a million dollars. Additional units will be financed as the funds become available.

Where students live

ONLY IN GENERAL TERMS does the new Bicentennial Program brochure address itself to the proposal to add to the residential area for men on College Hill. But the hope is noted in explicit enough fashion:

"Although the Corporation anticipates that enrollment at The College may increase slightly (not more than 100 during the next few years), there is need to provide additional dormitory space for the University's undergraduate students. Such accommodations will relieve the present crowded conditions in the Wriston and West Quadrangles and provide space for students now living in buildings which must be razed to make room for other Bicentennial construction projects."

This magazine provided more detail on such objectives in its recent discussion on the Housing Report.

At Pembroke, residential needs are being currently met. In its new Quadrangle, students of the coordinate college for women are already occupying the first two dormitory units, Morriss and Champlin Halls. Adjacent to them, the construction of the other two units has reached an advanced stage, as the visitor to Meeting St. will have observed this winter. The new units, which will contain dining facilities as well as regular student housing, are expected to be ready for their first tenants with the opening of college next September. The buildings, actually, are expected to be ready this spring.

When the entire Quadrangle is in service, Pembroke will be able to retire from use all of the converted residences which had to be pressed into service (far from ideal) simply because there was no other housing available.

As the final item in its list of capital construction needs, Brown University (under the revised statement of Bicentennial goals) a number of renovations and conversions which could not be financed previously. We go into minimum explanation because most of the projects are self-explanatory:

Faculty offices will be provided by the renovation of several University-owned properties.

A better Faculty Club will be available after the conversion of a more suitable building than the brimful Club on Megee St. which sees such intensive use.

An addition to the chemistry laboratory in the Metcalf Research Building will be ingeniously contrived.

Facilities soon to be vacated by the Departments of Biology, Physics, and Geology will be converted.

The John Hay Library will undergo alteration when the new University Library is ready, notably for the storage and use of rare books, as well as for the display and exhibition of special materials.

Lower Manning will be remodeled for the rooms of the University Chaplains, thus relieving several rooms in Faunce House for its student activities.

Three arts, one roof

A CREATIVE ARTS CENTER has long been in the planning file of Brown University, but the first public discussion of what it should comprise came with the distribution of The Challenge brochure. Despite a strong tradition in creative arts both in the curriculum and in student activities, they have never had an adequate, carefully designed center of their own. This lack will be remedied, it is proposed, through construction of an ample center to accommodate virtually all of Brown's work in the creative arts. Since it would eventually cost several millions of dollars, the projected center would be built in units. The first has been included now as an objective in the Bicentennial Program.

One problem in the past has been the fact that art collections, musical organizations, and dramatics activities have been dispersed in physical terms. The Art Department carries on most of its activity in an ancient residence and a completely makeshift studio, with an "Art Gallery" and other wall space for exhibitions in Faunce House. As a rule, the Annmary Brown Memorial, while lending its rooms to an occasional special show, has other specified responsibilities.

The Music Department conducts most of its work in the former Alpha Delta Phi fraternity house and rehearsal rooms in Faunce House. The Music Building on College Hill is not large enough to accommodate its burgeoning work with students, which in instruction and performance have reached a level of quality unknown until recent years. Soundproofing is something which has been thought about wistfully but hardly achieved.

The program in dramatics is carried on in a theater of great utility, and with a proud record, but which puts distinct limitations on what might be done ideally. Those engaged in dramatics, of course, have had to share their theater and auxiliary rooms in Faunce House with scores of other University groups.

None of these Departments has nearly enough classroom and lecture space, nor adequate "special purpose" facilities (practice rooms, studios, galleries, workshops, and the like). The thoughtful observer has been aware of lost opportunities through the geographical dispersion of the various enterprises at different corners of the Campus. Because each activity is housed at considerable distance from the others, it has been difficult to achieve the benefits of joint programming. These, however, would come as a matter of course if all of the creative arts were grouped in a single, compatible center.

Here, then, is an attractive possibility now made realistic in The Challenge.

Bicentennial Objectives:

New Items on the Construction Schedule

Bio-Medical Science Complex	\$5,684,000
New Dormitories for Men	790,000
Humanities Building, Unit 1	996,000
Creative Arts Center, Unit 1	1,134,000
Renovations and Conversions	405,000

(The table does not include goals for endowment and current operations—\$20,300,000; it was \$15,000,000.)

Bicentennial Accomplishment: A Check-List of Results to Date

<i>Projects Announced in 1959</i>		<i>Status</i>
University Library Fund	\$3,500,000	Construction begun.
Biology Building	1,600,000	Built and in use.
Pembroke Dorms 1 & 2	1,500,000	Built and in use.
Heavy Engineering Lab	800,000	Built and in use.
Auditorium-Ice Rink	800,000	Built and in use.
Hope College Project	500,000	Back in use again.
Computing Center	350,000	Built and in use.
Engineering-Physics	3,600,000	Authorized by city; appeal pending.
Science Library	1,700,000	Plans being reviewed.
Replace Annual Funds	750,000	Sum allotted.

Under the revised Bicentennial Program, construction is well along on a third and fourth dormitory in the Pembroke Quad. An additional \$695,000 has been allocated toward the construction of the University Library; the sum originally announced had been identified as "needed to *initiate* major expansion." Other sums have been ear-marked as follows for items on the original schedule: \$251,000 for the Science Library; \$195,000 for the Engineering-Physics Building, whose status is reported on elsewhere. The final item of \$750,000 in the table above had been included "to replace funds for current operations which would be received from the annual Brown University and Pembroke College Funds during 1960-61." It had also been noted in 1959 that the construction of the Pembroke Quadrangle would be \$3,000,000, of which approximately half was available through a Government loan.

On student initiative

THE BROWN DAILY HERALD staff issued a "challenge" of its own in response to the University's announcement of new plans to meet the massive challenge grant of the Ford Foundation. *Herald* men have pledged up to \$400 "out of their own pockets, matching on a one-for-three basis every unrestricted dollar given by undergraduates in the names of their student organizations, fraternities, and dormitories" between now and June 30, 1964. If undergraduates contribute \$1,200, "thereby prying loose \$400 from *Herald* staffers," a total of \$1,600 will have been collected in funds eligible for matching by the Ford Foundation.

The *Herald* offer was made in a front-page editorial on Dec. 3. It pointed out that, with the Foundation's matching \$800, the University would receive \$2,400—"a not insignificant sum, considering the source."

Overnight, the members of the Executive Board of the Brown Young Republicans opened the drive with a \$20 contribution. The Cammarian Club President, the Stationmaster of WBRU, the President of the Faunce House Board of Gov-

ernors, the Senior Class President, and a fraternity President announced support of the Campus Challenge. The Faunce House Board will take up a collection from students who attend the traditional exam-week cartoon movie shows. Members of the Air Force ROTC unit made a gift of \$50 later in the week. At Pembroke, the staff of the *Record* pledged \$60, members of the Student Government Board pledged \$15, and East Andrews dorm students promised \$25. Sock and Buskin members made an "initial gift" of \$11.50.

Dean Morse sat down and wrote a letter to the undergraduate daily, commending its staff on their spirit and serious intention. "I hope you can afford it!" he concluded.

"No other course before us"

THE CHALLENGE which the Ford Foundation has presented to Brown concerns primarily the completion of the University's Bicentennial Development Program," said a statement given emphatic position in The Challenge brochure. "But it is a challenge of deeper significance. By selecting Brown as the only New England university to be included in its challenge grant program, the Foundation has literally placed the University at a crossroads which could very well determine Brown's destiny long after the current development program has passed into history.

"The Foundation has expressed its belief in the objectives of the University and has indicated clearly that Brown's administration, faculty, alumni, and friends are capable of carrying out those objectives. . . .

"In view of these circumstances, we have no other course before us but to succeed. . . ."

The statement appeared over the signature of Chancellor Harold B. Tanner '09 and Donald G. Millar '19, Chairman of the Bicentennial Development Program.

To review the University's position with respect to the Bicentennial Challenge: Between now and mid-1964, Brown expects to receive another \$4,400,000 in funds which do not qualify for matching monies from the Ford Foundation. Such accessions will lift the Bicentennial total to \$34,444,000 of its \$46,900,000 goal. The balance would thus become \$12,436,000 yet to be obtained.

Fortunately, since the Ford Foundation will provide another \$4,152,000 under the terms of its matching grant, it will be necessary for the University family to provide only an additional \$8,304,000. Attainment of this objective would both meet the Foundation's provisions and assure the total success of the Bicentennial Development Program.

In simplest terms, the progress and the opportunity may be thus stated:

Received prior to the Ford Challenge Grant	\$17,600,000
Received and pledged toward that Challenge	6,696,000
Earned and assured matching Ford funds to date	3,348,000
Non-matching funds received to date	2,400,000

SECURED TO DATE	\$30,044,000
-----------------	--------------

Further non-matching funds expected by mid-1964	4,400,000
Remaining Ford Foundation funds to be earned	4,152,000
Remaining matching funds to be raised	8,304,000

TOTAL	\$46,900,000
-------	--------------

\$9,632,179 in 1961-62

Where It Came from

GIFTS, grants, and bequests totalling \$9,632,179 were reported by Brown University in the last fiscal year. Of the sum, \$1,334,390 was from 9,395 alumni donors. Another \$3,311,303 came in the form of Government grants (which the Ford Foundation does not match, of course).

During the Capital Gifts Campaign of the Bicentennial Development Program, many alumni pledged for a three-year period, or until June 30, 1964. Some alumni have chosen to accelerate pledge payments, and as pledges are completed alumni names are returned to the active rolls of the Brown University Fund. However, for the duration of his pledge, an alumnus receives participation credit in the annual-giving program.

Including alumni who are still paying on pledges to the Bicentennial Capital Gifts Campaign, plus those who made gifts and pledges during the fiscal year 1961-62, 48.3% of the Brown men gave to help the University meet the first year's matching grant from the Ford Foundation.

It should be noted that the Brown University Fund reflects unrestricted gifts only. Payments on pledges to the Capital Campaign are shown under the BDP heading. The category of gifts to "Other" purposes includes Class funds, scholarship funds, gifts to special funds, and gifts to current, designated purposes. In past years, gifts to "other" purposes were included with the unrestricted gifts in the Brown University Fund total and were later transferred; this is no longer the practice. The summary deals with total giving to the University, from all sources:

CHAIRMAN
CLEMENTE
for business
and industry.

For corporation contacts

MAURICE L. CLEMENTE '34 of Boston has accepted the chairmanship of a strengthened committee which will seek further support of Brown University from corporations in business and industry. The Brown Trustee, who is Treasurer of the Kendall Company, will have this added responsibility in connection with the Bicentennial Development Program. Among the committee's functions will be to identify eligible corporations (more of them), to explore past and present patterns of giving on their part, to cultivate "contacts" with such corporation through alumni and others, and to present the University's case most effectively.

Renewed activity will be undertaken, also, in the year ahead by the University's Bequest Committee, headed by Harold H. Young '23 of Charlottesville, Va. Members of the committee and its staff will offer assistance in planning estates, in consultation with an individual's own attorney. Life-income agreements, in which the University participates, are also being encouraged. Both projects are of long-range potential, but Brown will eventually benefit from a growing number of benefactors in significant terms.

Gifts, Grants, and Bequests to Brown in Fiscal 1961-62

* Includes pledges

For the Medical Program

BROWN UNIVERSITY has received from the W. K. Kellogg Foundation of Battle Creek, Mich., a grant of more than one million dollars for support of its new program in medical education during the next five years. A first class of approximately 25 students is scheduled to be enrolled in the program in the fall of 1963 to begin a six-year curriculum leading to the degree of Master of Medical Science.

The Kellogg grant provides for payment to the University of five annual installments totaling \$517,500 to be applied towards planning and operating costs of the program. In addition, the Foundation has agreed to pay up to \$550,000 towards the cost of the first building designed specifically to house the program. Brown plans to construct this building within the next five years.

"This is the most substantial grant for medical education we have received thus far, and its part in the development of our program will certainly be decisive," President Keeney pointed out at the time of the announcement on Nov. 20. He said the Kellogg grant confirms the University's confidence that adequate support will be forthcoming to meet the very heavy costs involved in initiating a medical sciences curriculum. He recalled that Brown had decided to assume these costs because of the national need for expanded opportunities in medical education and because of its own considerable academic resources in fields related to medicine.

The Physician as a Scientist

A major emphasis in the philosophy of medical education in recent years has been on the training of the future physician as a scientist. Brown, in putting together an entirely new medical curriculum, has been able to give the fullest expression to that emphasis.

Throughout his six-year program, which includes four summer sessions, the Brown medical student will be encouraged to acquire those habits of independent study and creative inquiry that will best equip him to keep abreast of and contribute to the dramatic advances in knowledge that have become typical of all branches of medicine. At the same time, he will be asked to involve himself in some depth in humanistic studies, to help him acquire the breadth of outlook expected of the responsible professionally-trained man in the 20th century.

By the time he completes the Brown program in medical education, the student will have mastered the subject matter presented through the second year of a four-year medical school. He will then be ready to enroll in a four-year medical school for the two years of clinical work leading to the M.D. degree, or, alternatively, to undertake advanced scientific studies in the medical field of his choice.

"A Practical and Economical Means"

Further background information on the Brown program in medical education is provided in the following paragraphs quoted from the Kellogg Foundation's press announcement of its grant to Brown:

"The national shortage of physician's has been a mutually

shared concern of the health professions and of the public. The establishment of schools of the basic medical sciences appears to be a practical and economical means of educating greater numbers of physicians. Such schools encompass the first two years of the medical curriculum, with a view toward transfer of the students to four-year medical schools for their Junior and Senior classes.

"The first two years of Medicine do not require extensive clinical facilities or teaching-hospital construction. Hence, the two-year school is much less expensive than the four-year school. Also, there are ample openings in the Junior and Senior Classes of the four-year schools for the transfer of students from the schools of the basic medical sciences. Due to attrition; i.e., "drop-outs," the four-year schools have greater capacity in the clinical years than for the basic science or Freshman and Sophomore years of medical training.

"It is believed that the graduates of as many as six or eight schools of the basic medical sciences could be placed in existing medical schools for the clinical portions of their training. Accordingly, the Foundation since 1960 has granted amounts in each case exceeding \$1,000,000 to the Universities of New Mexico and Connecticut, and to Rutgers University, for the creation of such two-year schools. In addition, a grant was made in 1961 to the earliest School of the Basic Medical Sciences, that at Dartmouth College, to permit the expansion of facilities and increased student capacity in a building which houses the College's medical program.

"Past experience has shown that a majority of two-year schools eventually expand to four-year programs. Thus aid to establish two-year schools may be a step toward the ultimate addition of four-year schools to the medical education scene and hence an even larger stride than originally contemplated for alleviation of the physician shortage through schools of the basic medical sciences.

Where Brown's Program Will Be Unique

"Brown University, being an independent institution with strengths both in the liberal arts and sciences, finds itself in a singular position to undertake this new approach to medical education, an approach based on the conviction that Medicine is a scholarly calling that is best nurtured within the full academic context of a university. The only private institution in the country currently adding a new program in medical education, Brown is inaugurating a curriculum unique in that a student anticipating a medical career is required to enroll as a Freshman in the College of Arts and Sciences.

"During his undergraduate years, he has exposure not only to major science concentration but also to the humanities, thus gaining a good general education in addition to training in the biological and physical sciences. Also, during what is, over all, a six-year curriculum, he obtains his pre-medical preparation and, in the last two years, the non-clinical portion of his medical education in the School of the Basic Medical Sciences. The degree of Master of Science is awarded at the end of the sixth year. The student then transfers to a four-year medical school for his clinical training in Medicine."

December proved a winning month

A Title for Christmas

DESPITE a surprising 6-2 loss to Princeton just prior to the Christmas Tournament, the Brown hockey team showed enough in earlier games to indicate that it should have a good season, if not the highly successful one some alumni expected. After defeating the Alumni (5-3) and losing to St. Nicholas Club (4-3) in two "informal" but rugged games, the Bruins defeated Bowdoin (7-3), A.I.C. (15-1), and Army (8-1), tied Harvard (4-4), and lost to Boston College (6-0).

"When this team plays as a unit it can do very well, as was seen in the Army and Harvard games," Fullerton stated. "But we don't have any real outstanding boys; every effort has to be a team effort with plenty of hustle. Against Boston College and especially against Princeton, the hustle just wasn't there. Perhaps they started to read their press clippings too soon."

The Sophomores up from the 14-3 Cub sextet gave Coach Fullerton some talent and depth—a pair of commodities with which he hasn't been blessed in recent years. But Sophomores do make mistakes, and it does take them a certain amount of time to fit into the pattern of play, especially when a large group of them join the Varsity at one time. Against Boston College, the starting line-up included four Sophomores, one Junior, and one Senior.

Alumni Gave Them a Battle

In its opening contest, the Varsity had to rally for four goals in the final period to overcome a two-goal deficit and defeat the Alumni. A year ago, the Old Grads had prevailed, 5-4, in overtime. For 45 minutes, sensational play by Rod McGarry '60 in the nets and the aggressiveness of Don Sennott '52, Bob Wheeler '52, and Al Gubbins '52, helped the Alumni give the Varsity a few hockey lessons. Then, the undergraduates came up with two quick goals within 29 seconds to tie the game and came up with another tally at the 13:58 mark to go ahead, 4-3. The final Varsity score came after McGarry had been pulled in the final seconds.

The Alumni went two up in the first period on goals by Dick Cleary '59 and Gubbins while the Varsity was blanked by McGarry, who came up with 20 saves. Bob Olsen picked up the only goal of the second period to pull the Varsity to within one of a tie. Then, early in the final stanza the line that ranked as one of the best in the country a decade ago—Sennott, Wheeler, and Gubbins—clicked on the prettiest play of the night, with

Sennott netting the puck after taking a pass from Wheeler, who, in turn, was fed by Gubbins.

Defenseman Brian Smith caught the Alumni up ice at 5:33 of the period and beat McGarry. Just 29 seconds later, Terry Chapman tied it up when he slipped the puck past McGarry from just in front of the cage. With Gubbins in the penalty box, Pat Jones got the winning goal for the Bruins when he beat McGarry on a hard shot from 20 feet out. Smith, clearing from the defensive zone, hit the empty cage at 19:59 for the final Varsity score. McGarry ended the night with 52 saves (shades of his college days!) while John Dunham had 27.

The Alumni team was coached by Jack Skillings '37 and in addition to the men mentioned above its roster included: Bob Borah '55, Al Soares '60, Jake Murphy '52, Jack Gilbert '52, New Dewey '50, Don Hebert '59, Dick Cleary '59, John Bagnall '59, Robert V. Carter '42, Bob Reid '55, Marsh Williams '58, Hugh Mainelli '58, Ben Riley '40, Dave Kelly '60, Don Woodley '59, and Pete Gray '59.

In the season's opener, the Bears built a 4-0 first period lead against Bowdoin that just about settled the game. Sophomores accounted for four of the seven goals, with Terry Chapman scoring two and Leon Bryant and Don Eccleston one each. Co-captain Tim Smith, Bruce McIntyre, and Bob Olson accounted for the other goals. Since the last report in December, Sophomore Eccleston, son of the P.C. hockey coach, Tom Eccleston '32, was shifted from defense to center on a line with the high-scoring Chapman and Senior wing, McIntyre.

Against a weak A.I.C. team, 13 of the 15 players used by Coach Fullerton took part in the scoring. Olson came up with the hat trick, netting three goals in succession in the third period, and four altogether. Bryant came up with three goals and four assists. Chapman had six assists from his wing position.

At Their Best Against Army

The first big game of the year was with Army, and a standing-room-only crowd at Meehan Rink roared its approval as the Bears took a one-goal lead in the opening period and then added four more goals in the second session to send the East's seventh-ranking team down to defeat. Brown set a torrid pace on offense and, back-checking consistently, held the upper hand throughout. The Cadets spent the evening forming their plays in their end of the ice and then seeing them broken up at the Brown blue line.

A pair of penalties left Army short-handed in the opening period, and McIntyre put Brown ahead off a goal-mouth pass from Eccleston. Fred Soule, Eccleston, Bryant, and McIntyre scored in the second period as Brown put the game on ice. Hank Manley, still another of the fine Sophomores, had a goal and two assists for the evening. Goalie John Dunham played brilliantly in the nets, and Smith and Cameron were excellent at defense. One former Captain called it the best Brown performance he'd ever seen—on both offense and defense.

Facing two of the East's top teams the next week, the Bears lost to Boston College but managed to tie the defending Ivy champion Harvard sextet. The Eagles scored four first-period goals, added two in the second period, and played the Bruins even in the final 20 minutes.

However, against Harvard, Brown played another fine game, similar to the Army effort. Chapman turned the hat trick as the Bears took a 3-1 lead at the end of the first period, much to the amazement of the home Harvard crowd. The Bears increased the lead to 4-1 early in the second period and then had to hold off a fighting Crimson team the rest of the way. Excellent goal-tending by Dunham actually kept Brown in the game, as the Junior from West Redding, Conn., made 36 saves, 15 of them in the third period and several at point-blank range.

Harvard cut the lead to 4-3 in the second period and then tied it up at 1:47 of the finale. Although the Cantabs dominated the rest of the period, Brown's defense prevented any further scoring. In the 10-minute overtime each team had six good shots but couldn't score.

Highly favored to defeat a weak 1-5 Princeton team, the Bruins got a 6-2 shocker at Baker Rink. Brown was only one goal down going into the final period, but two defensive lapses cost them two quick goals that settled the game. The team lacked hustle on the offense and was often careless on the defense. The defeat was costly to the team's hopes for a shot at the Ivy title.

After six games, three of the top four scorers were Sophomores. Chapman led the parade with five goals and nine assists for 14 points, and he was followed by Eccleston (5-8-13), Bryant (6-6-12), and McIntyre (5-7-12).

The Cubs won three of their first five games, including an impressive 5-4 decision over a strong Princeton team. The other victories were against Walpole High (4-1) and Choate School (6-2). The Bruins lost to Boston College (7-1) and New Prep (3-2).

Kings of Their Tourney

Host to its second annual Christmas Tournament, the Brown hockey team was easily the class of the competition in which it won only one game in 1961. The Bears' three triumphs were all convincing.

First round: Brown 7, Williams 2, Norwich 3, Colgate 1, Massachusetts 2, Hamilton 1 (overtime), Bowdoin 7, New Hampshire 3. *Second round:* Brown 9, Massachusetts 0, Norwich 5, Bowdoin 3.

Williams 4, Hamilton 1, Colgate 7, New Hampshire 1. *Third round:* Brown 6, Norwich 3 (for the title), Colgate 6, Williams 4, Bowdoin 9, Massachusetts 2, New Hampshire 11, Hamilton 2.

Brown's 22 goals were tops for the tourney, but even more remarkable was the fact that 14 players figured in the scoring. Of Olsen's four goals, three came in the finale against Norwich (his second "hat trick"). Defensively, the Bears again had the best record, with only five goals allowed. The Brown goalies had the quietest night of the season against Massachusetts, being required to make only 12 saves in the shutout.

George Philley, Norwich goalie, was voted the "most valuable" player in the tourney. With him on the all-tournament team were: Bryant of Brown, Kennedy of Norwich, and Roe of Williams, forwards; Smith and Cameron of Brown, defense. On the second team: Meehan and Riggs of Colgate and Chapman of Brown, forwards; Torell of Colgate and Parker of Bowdoin, defense; Bowen of Massachusetts, goal. With three goals and seven assists, Bryant had the best offensive record for the three days. Roe, who scored the most goals (5), had three assists.

Wanted: a Bench

THE BASKETBALL TEAM, playing for the most part with only six men, took a 3-3 record into the Downeast Classic at Bangor, Me. The highlight of the early-season play was a thrilling 63-62 last-second decision over highly favored Rhode Island. Other victories were against Springfield (68-51) and Tufts (79-47). Defeats were handed the Bruins by Amherst (60-52), Yale (73-52), and Providence College (72-47).

Coach Stan Ward knew he would be faced with a manpower problem because of the loss of six Seniors, including three-time All-Ivy, Mike Cingiser. Then, Jay Jones, at 6-6 a potential starter, left school for a year of work. And, after three weeks of practice, 6-8 Sophomore Charlie Reilly gave up the game because he "didn't enjoy" participating. He was the leading scorer on the Cubs a year ago.

That left Brown with Capt. Gene Barth (6-7), Gary Nell, a 6-3 Junior cornerman; Dave Tarr, a 6-6 center who saw limited service last year as a Freshman; and three small guards, Bill Oellrich, Alan Young, and Fran Driscoll. Three Sophomores were expected to help by February—John Parry, the football end, John Dodge, and Dave Jones.

Brown's chances in the Ivy League were considered so slim by the other coaches and the sports writers that the Bruins weren't even mentioned in most of the reviews. The Ivy League this year could be stronger than it has been in decades. For example, Penn's main problem is how to make use of its multitude of talent. Princeton's main worry is that its Sophomore star, Bill Bradley (already called one of the five best players in the country), may get so much publicity that it will go to his head. Cornell and defending champion Yale have so many

VARSITY LINE-UP in basketball: The starting five for Brown includes (left to right) Capt. Gene Barth, Fran Driscoll, Bill Oellrich, Gary Nell, Dave Tarr, and Coach Stan Ward.

good big men that they worried about injuries in the intra-squad scrimmages on the respective campuses.

The Bruins breezed through the first two games against Springfield and Tufts. Barth was the big noise against the Gymnasts with 31 points, 13 rebounds, and a fine defensive job against the Maroon's high-scoring forward, Fred Bredice. After scoring eight points in the first eight minutes, Bredice was held to two points over the final 32 minutes by Barth's close attention. The Bears trailed by eight late in the first half before Coach Ward put them in a half-court press that rattled Springfield and broke the game wide open.

Brown's backcourt had 45 points in the decisive victory over Tufts. Fran Driscoll, Junior sharpshooter from Attleboro, had his best Varsity night with 23, while Senior Bill Oellrich and Junior Alan Young had 15 and seven, respectively. This combined total was only two short of Tufts' entire output for the evening.

Playing on the road for the first time, the Bruins had a cold hand at Amherst. Over the route, Brown sank only 20 of 61 shots. The Bears trailed by only 26-25 at halftime, but the Lord Jeffs pulled away to a 12 point lead midway through the final half and withstood a final Brown surge. Barth had 15 points and Nell 10.

One of the Great Nights

The Bruins had absolutely no business defeating the talent-heavy Rhode Island team. The Rams are on the way up in basketball, trying to take the hoop spotlight away from Providence College and put themselves back in the Eastern lime-light. Earlier in the season, Coach Ernie Calverley's club had defeated Fordham and lost a close one to nationally-ranked Miami.

To make matters worse for Ward, Nell, the most deadly shot on his team, had been in the infirmary since the Amherst game and was available only for spot duty. That left Brown with five men and a part-time Nell available to use against Rhody.

Once in a while in sports, a coaching effort will stand out to such an extent that even the casual spectators can point to it as the deciding factor in the game. This was one of those occasions. Ward packed the middle and then turned all Rhody's plays into it, completely taking away their baseline drives. Brown, which had to stop URI's fast break, did so by playing a deliberate game, never leaving the backcourt unguarded. And, the Bruins had to stop Charlie Lee, who by the campaign's close will be the number-two scorer in Rhode Island history. Ward's special defense for Lee, carried out by Captain Barth, held the Ram ace to one point.

With all this, Brown needed that second effort from each and every man—and got it. Hustling every minute, the Bruins made steal after steal with their aggressive play. A conservative estimate of the number of times the Rams turned the ball over without a shot would be 25.

However, as Coach Ward observed the next day, "hustle and heart and spirit can only take a team so far. It's all emotion, and the boys get burned out. Most of my kids couldn't go to bed all night after that game."

The shouting for this one started with the opening tap. It was that kind of game. Rhode Island led by five late in the first half, but Nell, off the bench for a few minutes of action, tossed in two jumpers to make it 30-29 at intermission. Then, with four minutes left, the Bruins

HONORS AT THE BROOMHEAD DINNER: In the upper photo, President Keeney congratulated Gerry Bucci and Tony Mattea, Junior guards who will be Co-Captains of the 1963 football team. The '62 Captain, Nick Spiezio, received the Brown Club Trophy for his contributions as an inspiring leader. Ed Kiely '50, President of the Rhode Island Club, made the presentation.

Yale and Rhody were previously undefeated. Al Milanese, a 5-10 guard from North Bergen, N. J., scored 110 points, including a 32-point performance against Yale.

A Split for the Swimmers

SHOWING a strong front line but a definite lack of depth, the swimming team broke even in its first four meets, defeating Southern Connecticut (61-34) and Penn (54-39) while losing to Dartmouth (60-35) and Amherst (55-40).

Coach Joe Watmough's men broke three Southern Connecticut pool records and tied a Brown Varsity mark in the opening victory. The record setters were Walt Ingram in the 200 butterfly (2:21.7), Bob Martin in the 200 backstroke (2:15.6), and Mark Tafene in the 200 breaststroke (2:42.4). Co-captain Dick Paul equaled the Brown Varsity record in the 100 free-style with a 51.8 clocking. Co-captain Mike Prior was a double winner, taking the 200 and 500 freestyles, the latter distance being a new event and his time a new Brown record. Marty Thomas in the diving and the medley relay team of Martin, Larry Goff, Ingram, and Dave Laney provided Brown's other first place finishes.

At Hanover, Brown could get only four of the first 11 place finishes. Martin was a double winner again, finishing first in the 200-yard individual medley and the 200 backstroke. The other Brown first places came from Prior in the 500 freestyle and the 400 freestyle relay team of Martin, Paul, Ingram, and Denny Holt.

The Amherst meet wasn't decided until the second-last event, the 200-yard breaststroke, in which the Lord Jeffs took the first two places. Double winners for the Bruins were Martin and Prior. Martin took the 200-yard individual medley and the 200 backstroke, while Prior won in the 220 freestyle and the 500 freestyle.

Sweeping eight of the 11 first places, and with Martin and Prior each scoring double victories again, the Bruins had surprisingly little trouble with Penn. In addition to Martin and Prior, other Brown winners were Lew Feldstein (50 freestyle), Ingram (200 butterfly), Paul (100 freestyle), and the 400 medley relay team of Martin, Goff, Ingram, and Paul.

The strong Cub swimmers won two of the first three, defeating Southern Connecticut (55-40) and Cranston High (59½-35½) and losing to Dartmouth (54-41). The Cubs broke three school records in the opening victory over Southern Connecticut. Pete VanDerzee erased Bill Fulton's four-year-old mark of 1:13 in the 100 breaststroke with a time of 1:07.3. Dave Prior, brother of the Varsity's Mike Prior, set a Cub record for the 400 freestyle at 4:34.2, beating the previous mark of 4:47.8 set by Denny Holt a year ago. The medley relay team of Fred Hyer, VanDerzee, Doug Gortner, and Tom Warner lowered the Freshman record to 1:51.4.

Prior, a native of Cranston, R. I., and VanDerzee (Selkirk, N. Y.) were elected Co-Captains of the team.

had built an eight-point lead, 57-49, but with 3:22 to go the Rams had closed it to four.

Rhody tied it up at 59-all with 1:10 to play, when Tarr put Brown ahead with a hook shot. A pair of free throws tied it up again for Rhode Island—for the 10th time—and now there was less than a minute to play. Brown had the ball and worked for the last shot, but before he could get it off Driscoll was fouled. With four seconds left on the clock, and the Gym in a bedlam, Driscoll calmly went to the line and sank both free throws to give the Bruins a 63-61 lead.

The suspense wasn't over yet. Tarr fouled Rhody's 6-8 center, Frank Nightingale, with one second left, and the Rhode Island Sophomore stepped to the line for his two shots. He hit the front of the rim with the first shot and the ball went in. Then, after he walked away from the line, obviously trying to shake off the tension, he took his position again, aimed and let go. The ball didn't even reach the basket, and the game was over. Some great games with Rhode Island have been played at Marvel Gym in the past. This was one of the best.

Tarr paced the Brown attack with 16 points, in addition to doing a fine job defensively and on the boards. Driscoll had 14 points, including the two final big ones, and Barth had 13.

The Bruins didn't have much left in the Ivy opener against Yale two nights later. Brown also learned how important Captain Barth is to its basketball welfare. With the 6-7 Senior from Lake Forest, Ill., playing all the way in the first half Brown took an 11-point lead at one stage and still prevailed, 28-25, at the half. But, 40 seconds after the start of the second half, Gene committed his fourth personal foul and went to the bench. Yale promptly ran off eight straight points, and Ward reinserted him in the game to try and halt the surge. Two minutes later he picked up his fifth personal and that was it for him—and the Bruins.

After five games, Barth led the team in scoring with 84 points, followed by Driscoll (58), Nell (52), Tarr (47), Oellrich (30), and Young (28).

The Cubs were undefeated after five games, beating Springfield (66-53), Tufts (88-47), Providence College (64-54), Rhode Island (80-79), and Yale (72-65).

LEADERS

GERRY BUCCI of Ridgewood, N. J., and Tony Matteo of Lawrence, Mass., Junior first guards, were elected Co-Captains of Brown's 1963 football team at the 39th annual Broomhead Dinner in November. They are the first co-captains at Brown since 1951 when Jim Martland and John Pietro shared the duties.

Regulars on the Freshman eleven and for two years on the Varsity, Bucci and Matteo have developed into a pair of excellent two-way performers. One Ivy League coach rated Bucci, a 5-10, 190-pounder, as the second best linebacker in the circuit, behind Dartmouth's All-American Don McKinnon. Matteo, a 6-2, 205-pounder, played tackle as a Sophomore but was switched to guard last season to make better use of his exceptional speed.

Twenty-seven players and a manager were awarded letters. The list, which includes eight Juniors and 12 Sophomores, follows: *Seniors*—John Arata, Parker Crowell, Buddy Freeman, Richard Greene, Jon Meeker, Bill Savicki, Nick Spizio. *Juniors*—Don Boyle, Gerry Bucci, Chris Eustis, Bill Lemire, Tony Matteo, John Miles, John Moyer, Bill Vareschi, and Manager Ed Tuller. *Sophomores*—Mike Allara, Al Barney, Don Carcieri, Paul Coughlan, Ralph Duerre, Jim Dunda, Ron Ferraris, John Kelly, Dave Krafchik, John Lutz, John Parry, Bob Seiple.

Also honored at the dinner was Nick Spizio of East Orange, N. J., Captain of the '62 Bruins, who was awarded the Brown Club of Rhode Island's War Memorial Trophy. This is presented annually to "that member of the Varsity football squad who through sportsmanship, performance, and influence contributed most to the sport at Brown." In presenting the award, Club President Ed Kiely '50 called Spizio typical of the spirit displayed by the team, a team that statistically was only nine points away from having a very creditable season. "You boys won more friends while losing games than some teams have while winning games," he said.

"Being Captain of this particular team has been the biggest honor of my life," Spizio said in reply. "It never gave up. I'm sure what we learned on the gridiron is going to help all of us later in life. Of course, football is more fun if you win a few games. I think, if you fellows stay in there, you'll win your share next fall."

Coach McLaughry agreed. "You men are good enough to be in contention for the Ivy title next year," he said. "But to win you'll have to be willing to make some sacrifices."

President Keeney told the players they had won the respect of their opponents and followers. "You were a team that was interesting and one of which the alumni could be proud," he said. "You played with spirit and sometimes with brilliance."

William T. Broomhead '35 and Lloyd Broomhead '49 were hosts at the dinner, with the former serving as toastmaster in traditional good form.

A Great Captain

NICK SPIZIO, Brown's 1962 football Captain, received additional honors at the final luncheon of the Boston Chapter of the Football Writers' Association when he was presented the Senior Achievement Award. This award is given annually to the New England college football player who has displayed the highest qualities of sportsmanship and leadership and, in so doing, has made the greatest contribution to the sport.

Spizio always wanted to be a good football player, and when he found himself a third-string fullback as a Freshman and again as a Sophomore, he asked for a try-out with the end squad, which had been depleted by injuries. He earned a starting job and developed into a solid two-way player over the past two seasons.

After being elected Captain, he wasted no time in showing his leadership qualities. He set out to make 1962 a great season for himself and the team. He was continually rounding up groups of the players last spring and getting them out to the Gym for some exercise and perhaps a look at the 1961 game films.

The squad spirit that prevailed from the opening day this fall was partly a result of Spizio's example. Then, in the Dartmouth game, he broke his hand. To all intents and purposes, his career was over.

"Most kids would have packed it in and called it a season," Coach John McLaughry explained in a letter to the President of the Boston football group. "But Nick had more determination than most kids. He put on his uniform every day, and his spirit was catching. He worked just as hard trying to help as he did trying to play. He even took extra time to help with the Freshman ends."

Setting Records

ALTHOUGH Brown finished last in the Ivy League again this season, three of Coach John McLaughry's men were prominently mentioned when the final statistics were released. Since two of them are Sophomores and the other is a Junior, this fact may speak well for the future.

This was a season for new records in the Ivy League. Altogether, six game, nine season, and three career marks were shattered. Of these, Brown's Sophomore end, John Parry, has three to his credit, and he is just a whisker away from breaking two others.

The records Parry set, along with the previous Ivy marks, are as follows: Passes caught, one game—9 vs. Harvard (8 by Bob Federspiel of Columbia vs. Cornell, 1960). Passes caught, one season—26 (21 by Alan Rozycki of Dartmouth, 1960). Most yards passes received—374 (328 by Mike Cavallon of Yale, 1957). Parry needs only 70 yards to break the career record for most yards gained on receptions, which is currently held by Norm Juvonen of Cornell, 1956-58. And, with five touchdown passes in his Sophomore year, Parry needs only one to tie and two to break the Ivy career record in this category.

A breakdown of the various departments shows that Parry led the League in pass-receiving with 26 catches for 374 yards and five touchdowns. His nearest rival, Tom Spangenberg of Dartmouth, had only 15 receptions for 292 yards. Seventh on the list for pass receiving was Jan Moyer, Junior halfback. Jan pulled in 13 tosses for 180 yards.

Sophomore quarterback Jim Dunda ranked second among the Ivies in passing. His 61 completions in 126 attempts for 818 yards placed him behind Archie Roberts, Columbia's fine Sophomore, and ahead of such Ivy standouts as Gary Wood of Cornell and Bill King of Dartmouth. In total offense, Dunda ranked fourth to Wood, King, and Roberts with 850 yards.

Brown's accurate football statistics go back to 1937, and some of the marks set by Dunda, Parry, and Moyer in 1962 compare favorably with the best performances over the past 26 seasons. For example, Dunda's 139 passing attempts for the full nine-game schedule are third to Jack Rohrbach's 156 in 1960 and Frank Finney's 142 in 1958, and his 65 completions are third to Rohrbach's 76 in 1960 and Finney's 71 in 1958. Pete Kohut also had 65 completions in 1954.

Dunda's 928 yards through the air put him in second place in this category, trailing only Finney's 982 yards in 1958. And, Dunda's nine touchdown tosses is second to Eddie Finn's 13 thrown in 1948. His

average of 14.3 yards per completion is the best since Kohut's 16.0 in 1952. Doc Savage holds the Brown record with 20.6 in 1943. In total offense, Dunda's 932 is third to Finney's 1134 in 1958 and Finn's 934 in 1948.

Parry's 27 receptions on the season left him two short of the Brown mark of 29 set by Dick Laine in 1960. His total yardage of 385 was second to Chuck Nelson's 435 in 1948 and the five touchdown passes he caught left him second again to Nelson, who caught seven in 1948. Jan Moyer's 326 yards on kickoff returns left him third over the past 26 seasons to Ken Kessar (379 in '52) and Paul Choquette (352 in 1959).

The final Ivy League team statistics pointed out several areas where the Bruins are going to have to improve in 1963 if they hope to move up in the standings. For one thing, Brown will have to put the foot back into football. The team punting average of 30.0 was the lowest in the

League, and the second lowest in the last 26 seasons on the Hill. The Bears were also weak on extra points, converting on only six of 15 attempts. The lack of an accurate toe also hurt Brown in the field goal category, an important part of the game since the goal posts were widened several years back. Field goals were the difference as the Bears lost to Columbia, 22-20, and to Penn, 18-15. And Yale had two field goals on a muddy field to tie Brown, 6-6.

Several of the Bruins received recognition in the post-season selections. The A.P. nominated Parry on its second All-Ivy team and gave him All-East and All-New England honorable mention. Dunda and Bill Savicki got honorable mention for the A.P. All-Ivy, while Dunda and Gerry Bucci received the same rating on the A.P. All-New England. The Coaches' All-Ivy, which is considered the official team, gave honorable mention to four Bruins—Parry, Dunda, Moyer, and Bucci.

Autumn Scoreboard

FOOTBALL—Varsity (1-6-2): Brown 6, Colgate 2, Columbia 22, Brown 20, Brown 6, Yale 6, Dartmouth 41, Brown 0, Penn 18, Brown 15, Brown 12, Rhode Island 12, Princeton 28, Brown 12, Cornell 28, Brown 26, Harvard 31, Brown 19. **Freshmen (3-3):** Boston College 25, Brown 0, Dartmouth 14, Brown 12, Harvard 14, Brown 7, Brown 6, Yale 0, Brown 7, Columbia 0, Brown 27, Rhode Island 12. **Freshman B Team (1-1):** Brown 21, Dean Jr. College 6, Nichols 14, Brown 0. **Jayvee (2-1):** Quonset NAS 13, Brown 10, Brown 29, Harvard 18, Brown 6, Dartmouth 0.

SOCCER—Varsity (5-5-1): Wesleyan 3, Brown 1, Brown 5, Rhode Island 0, Yale 2, Brown 1, Brown 2, Dartmouth 0, Brown 3, UConn 1, Brown 2, Penn 2, Columbia 2, Brown 1, Springfield 2, Brown 0, Brown 3, Princeton 1, Brown 3, Cornell 0, Harvard 1, Brown 0. **Freshmen (7-3):** Brown 3, Tabor 0, Brown 6, Wesleyan 0, Trinity 4, Brown 2, Brown 4, Yale 3 (overtime), Brown 14, M.I.T. 0, Brown J.V. 3, Brown 0, Brown 2, Andover 0, Brown 3, UConn 2, Brown 1, New Bedford High 0, Harvard 4, Brown 3. **Jayvee (5-0-1):** Brown 6, Barrington Coll. 0, Brown 6, Bradford Durfee 0, Brown 2, St. George's 1, Brown 6, Leicester Jr. Coll. 0, Brown 2, Dean Jr. Coll. 2, Brown 3, Brown Freshmen 0.

CROSS COUNTRY—Varsity (6-2): Brown 29, Yale 36, UConn 59, Harvard 27, Brown 29, Brown 19, Dartmouth 40, Brown 18, Rhode Island 37, Fordham 37, Brown 42, Providence 64, Syracuse 77. **First in the New Englands, Fifth in the Heptagonals, Sixth in the IC4A's.** **Freshmen (5-3):** Brown 19, Yale 39, UConn 78, Harvard 27, Brown 29, Brown 15, Dartmouth 49, Brown 15, Rhode Island 50, Providence 31, Syracuse 50, Brown 60, Fordham 78. **Second in New Englands.**

Sports Shorts

STARTING TIMES have been changed for the Varsity and Freshman hockey games with Harvard at Providence on Feb. 9 to avoid a conflict with the Brown-Penn basketball game that evening. The Varsity game, originally scheduled for 8 p.m., has been moved up to 4 o'clock. The Freshman game will start at 1:30.

Bob Hall, outstanding Freshman quarterback, accumulated some impressive statistics in the six-game Cub schedule. The 6-2, 190-pounder from Worcester Academy completed 32 of 76 passes for 405 yards, carried the ball 80 times for 297 yards, scored three touchdowns, passed for two, and intercepted seven passes. One move Coach McLaughry admits he will ponder through the winter is whether to leave Hall at quarterback or move him to left half.

Bill Peters, former All-State quarterback at Rogers High in Newport, was elected Captain of the Cub football team prior to the final game. Playing mostly at halfback, he was the fourth leading ground-gainer with 123 yards and the second leading

They just wouldn't quit

COACHING the 1962 Brown football team gave me the greatest pleasure of my career," John McLaughry said at the end of the season. "I can't say too much for the spirit of the players. I'm certainly looking forward to next fall." So are the alumni.

Despite its 1-6-2 record, this was a team that kept fighting back all through the season, even when the scoreboard and the field clock told them they didn't have a chance. And, some of the rallies in the closing minutes of the halves would have done justice to an all-winning club. These rallies didn't always pay off, but they left the general image of a fighting, never-say-die ball club.

Against Columbia, the Bruins trailed, 13-0, with 1:50 to go before intermission. A touchdown was needed to get back in the game, but Brown was a long 59 yards away. This didn't daunt the Bruins a bit. Jim Dunda swept for six yards and on the next play tossed a 53-yard scoring pass to John Parry.

Then, with 54 seconds left in the seesaw struggle, Brown trailed, 22-14, but had possession 68 yards away from pay dirt. To tie, Brown needed a touchdown and a two-point conversion. The Bruins took only 41 seconds for the TD. The attempt for the two-point conversion failed, but, as the team came back up the field, the fans on both sides of the gridiron gave the boys a standing ovation.

The next week, at rain-swept Brown Stadium, Coach McLaughry's men did it again. There was only 1:25 left to play in the half when the Bears recovered a Yale fumble on the Brown 49. The Bruins moved to a touchdown in five plays, the last a four-yard pass from Dunda to Parry. The play started with one second showing on the clock, and Parry actually scored after time had expired. The TD gave the Bruins a 6-6 tie with the Bulldog.

There wasn't much to shout about when

the Dartmouth Indians came to town. The final score was 41-0. But the team never quit, and in the closing minutes Sophomore reserve quarterback Don Carcieri took the team on a 73-yard advance to the Dartmouth 19.

Penn led Brown, 10-0, after 29 minutes and 12 seconds of the first half. Then, on a fourth-down play, Dunda raced back and forth before spotting Bill Lemire in the end zone and hitting him with a 13-yard touchdown pass that again got the team back in contention. Late in the game, trailing, 18-15, the Bears almost did it again. Starting on their 35, Dunda took the team 64 yards and two feet before the rally died on the Quaker one-foot line with 1:32 remaining.

The team showed the same spunk against Princeton, Cornell, and Harvard. Behind 28-6 at Palmer Stadium after sloshing around all afternoon on a field that was a quagmire, the Bruins stopped a Tiger drive with a pass interception and proceeded to march 88 yards down the field, finally sending Jan Moyer over on a seven-yard reverse just before the final gun.

The Bruins were down by two touchdowns to Cornell early in the game, but they kept fighting back and finally caught up in touchdowns only to lose, 28-26, on the margin of two extra points. At that, Brown almost pulled it out when a fifth scoring drive was halted on the Big Red three by a pass interception.

Although the Bears trailed all the way and lost rather decisively to Harvard, 33-19, the fans and the members of type-writer row were talking after the game about the way the team had kept bouncing back, and especially about the exciting passing performance turned in by Dunda and his two able receivers, Parry and Moyer. One Boston writer said the young Bruins had enough ability and spunk to definitely bear watching in 1963.

pass-receiver with six for 63 yards. George Schweickert of Baldwin, N. Y., and Al Young of Rockville Center, N. Y., have been chosen Co-Captains of the 1963 soccer team, while Dave Farley of Orrington, Me., will head Coach Ivan Fuqua's harriers next fall.

Sophomore inside Bill Hooks was awarded a spot on the Coaches' 1962 All-Ivy League soccer team. Three other Bruins were on the second unit—Bill Zisson at right halfback, Al Young at center forward, and Sophomore Phil Solomita at center halfback. Zisson, a Senior, and Young, a Junior, made the second team a year ago.

Jim Kfoury, '62 soccer Co-Captain, received the first Alumni Award, which is to be given annually to "that member of the Varsity soccer squad who through sportsmanship, performance, and influence contributed most to the sport at Brown."

The Friends of Track sponsored a dinner for Coach Fuqua and his New England cross country champions on Jan. 8 at the Grist Mill. Both the Varsity and Freshman teams were honored. Chairman Ed Bromage '27 was assisted in running the affair by John O'Leary '41, Ed Richards '27, Frank Sternberg '50, Don Bliss '61, John McOsker '26, and George Rustigan '29.

Coach Fuqua's winter track team opened its season with a 59-50 triumph over Boston University, and the Cubs won, 101-6. In the Varsity meet, Brown had five first places—Dave Farley (mile), John Jones (two-mile), Charlie Jackson and Bob Eagan (pole vault), Bob Hendon (low hurdles), and the two-mile relay team of George Stracham, Dave Hatcher, Bill Libby, and Farley.

Brown was officially readmitted to the Intercollegiate Lacrosse Association in December at the annual meeting of that group. The sport, dropped at Brown in 1937, has been played on an informal basis in recent years but will achieve Varsity status again this spring. Last year, Coach Cliff Stevenson's men were 12-2, and only three Seniors were lost from the 32-man squad.

The Rhode Island Hockey Officials' Association conducted its first annual clinic on ice at Meehan Auditorium in November. Demonstrations of rules and infractions were given for the benefit of the R. I. hockey coaches and the public.

Although football attendance across the country was up 2.66 per cent, the Ivy League showed a drop of 7.06 per cent. In 1961, 775,095 fans were attracted to the 42 Ivy games, while the total was 720,369 this fall. A cycle of unusually bad weekend weather around the League probably was responsible for a major share of the decrease.

Brown's Director of Sports Information, Pete McCarthy, has the perfect script for one of those old T.V. shows, "The Name's The Same." For three years he has been setting the record straight with reporters who have confused two Brown athletes, John Fish and Jon Fish. John has been a member of the wrestling team during his Varsity career, while Jon has served the soccer team well. "By itself, this wouldn't

COACH AND HIS TEAM: Prof. Donald G. McBrien '48 of Boston University had coached the BU Varsity men's ski team to four consecutive championships. Last year, "for a change of pace," he guided the newly formed women's team to a title in the first Women's Intercollegiate Ski Conference meet. A mathematician, Professor McBrien has used an electronic computer to score ski events since 1957. But he gives credit for the victories to the competitors, not the machine.

have been too bad a situation," McCarthy admitted, "but then we had two John McMahon's, one on the football team and the other on the soccer squad. By the end of the season, I was even having trouble with Jon Meeker and Jan Moyer. And, of course, Pete McCarthy was a good Penn back."

Fred Kozak '50 had a problem on Nov. 10. A member of Division 2 of the Eastern Intercollegiate Football Officials Association, he was scheduled to work the Massachusetts-Connecticut Freshman game at Amherst. He was also scheduled to start for the Alumni in the revival of the Alumni-Varsity basketball series that night at Marvel Gym—100 miles away. A friend was rather surprised to see him show up at the Gym on time, and said so. "Oh, I didn't have to rush at all," Fred replied. "But I'll tell you one thing. There were very few flags thrown by yours truly this afternoon. Somehow it struck me as a very clean game!"

The second annual Alumni-Freshman soccer game was rained out Homecoming morning, Nov. 10. Last year, 15 alumni returned to the Hill and combined to hold the Freshmen to a 1-0 victory. This year a larger group was expected back, and a victory over the Cubs was anticipated, at least in the minds of some of the old grads. "I guess we'll just have to wait until next year," said Bill Margeson '37. "The only trouble with this is that *some* of us are going to be a year older then!"

Joe Fidler, Captain-elect of the tennis team, won the annual Faxon Tennis Tournament this fall as he defeated Sophomore

Jim Schreiber, 7-5, 5-7, 9-7, at Aldrich-Dexter Field. Peyton Howard '62 had taken the title the last three years.

"Valued employee of Brown University for many years," said the death notice in the *Providence Journal*, John Frederick Lewis, who died on Oct. 18, had been in charge of the athletic uniform laundry at Marvel Gym for 17 years.

Pete McCarthy, Director of Sports Information on the Hill, has been named to the Board of Directors of the Football Hall of Fame.

A Losing Streak Broken

COACH RALPH ANDERTON'S wrestling team split even in its first two matches, losing the opener to Springfield, 45-6, and then defeating Connecticut, 29-8. The victory over UConn was Brown's first since the halfway mark of the 1960-61 season.

Capt. Ken Linker and Sophomore star Don Kmiecak were Brown's only winners against an exceptionally strong Springfield team. Linker gained a 7-2 decision in the 130-pound class and Kmiecak was a 3-1 winner in the 167-pound division. Against Connecticut, Linker, Kmiecak, Dave Westfall, and Steve Hammalian all won by falls. In the Coast Guard Academy wrestling tourney, Linker and Wes Thomas were the only winners as Brown was eliminated after the first day's competition.

The Cubs bowed, 26-22, to their Springfield counterparts but came back strong to rout Connecticut, 35-2. The Cub matmen appear to have more talent than has been the case in recent years.

Brunonians Far and Near

EDITED BY JAY BARRY '50

1897

MRS. GEORGE L. MINER, wife of the Class Secretary, died in Providence Nov. 19. She was a founder of the Providence Handicraft Club, which she had served as a President, and held membership in several organizations in the arts and crafts. The Miners had celebrated their 60th wedding anniversary on Commencement Day in 1962.

1903

The heyday of Infantry Hall in Providence was recalled in four featured columns of reminiscence by Marc Green in the Providence *Evening Bulletin* recently. Describing his newspaper days in Providence, Green told of encounters with Sir Ernest Shackleton, Chauncey Olcott, James J. Corbett, Terry McGovern, Buffalo Bill, Gypsy Smith, Robert E. Peary, Roald Amundsen, and others.

During his world travels, there were even more famous meetings—with Pope Pius XII, Mahatma Gandhi, Jack London, Presidents Taft, Harding and Coolidge, and Charles Evans Hughes '81 ("a very serious and sober talk in his office in Washington when he was Secretary of State"), to name only a few. Green is travelling less, but his memoirs make interesting reading.

1904

Elisha C. Mowry, Providence attorney, a Director of the English Speaking Union and a member of its Executive Committee, attended the fourth World Branches Conference in San Francisco in November.

1907

Good news is that Dr. Leon E. Truesdell, after two months in the hospital and three months recuperating from his accident at Commencement time last June, is "well on the way to recovery" and ready to resume his "not too burdensome work" at the Census Bureau in Washington. "As of now," he wrote in a November letter, "I am beginning to think of another trip as a possibility—perhaps with a resolve never to start for downtown (in Providence) on foot."

President Henry G. Clark and Mrs. Clark were visitors to the Virgin Islands for a vacation in November-December.

Roy R. Smith and Mrs. Smith are in Bushnell, Fla., where their address is Box 198, RFD. They will stay in Bushnell until the end of March, then head north again to Bristol, N. H. "One thing I enjoyed very much the past summer," Roy reports, "was reunion with Francis Anderson, who hasn't been in Bristol for two years. I had some good visits with him."

Herbert B. Keen and Mrs. Keen are

snug again in East Setauket after a late fall motor car trip to Williamsburg, Va., where they spent Thanksgiving with Mrs. Keen's relatives and visited the College of William and Mary. "Many new buildings adorn the campus, which looks rather bare of trees," Sal said. "The Wren building wins my Oscar."

A. H. GURNEY

1909

Bill Connell, our Prexy, has had another bout with pneumonia and spent some time in the hospital. Under doctor's orders, he went to Florida in late November for the winter.

Syd Wilmot is back from his California trip. While there, he made an auto trip North, seeing Harry Skerry in Portland and Harper Goodspeed in the Napa Valley. Skerry, who was hospitalized during the late summer and autumn, is improving, Syd says.

Bill Sykes is in Florida again for the winter: 456 13th Ave., NE, St. Petersburg. The Library of the University of Rhode

Called on by the State

MEMBERS of the Brown family were prominent on two Rhode Island study commissions making reports last fall. One group, which recommended a revised constitution, including a four-year term for Governor, was composed of 13 men, six of them from the Hill. William H. Edwards '19, a prominent Providence attorney, was Chairman. Members included President Keeney; David D. Warren '45, an Assistant Professor of Social Science at URI; and the following legislators: Representative Robert H. Breslin, Jr., '50 (R-Warwick), Senator Harold S. Moskol '29 (D-Providence), and Senator Harvey S. Reynolds '23 (R-Little Compton), all lawyers.

Four Brown men and a professor at the College were included on the seven-member commission Governor Notte named to draw up House-reapportionment legislation in September. Raymond E. Jordan '17, a Providence attorney and former Democrat Lieutenant Governor, served as Chairman. Working with him were Professor Warren '45, Frank C. Cambio '17, Providence attorney; Richard A. Hurley, Jr., '32, Providence real estate man; and Dr. Elmer E. Cornwell, Jr., Associate Professor of Political Science at Brown.

When Men Are Shopping

WALTER HOVING '20, Chairman of the Board of Tiffany & Co., reacted quickly recently when a newspaper writer said that, because many New York stores are overheated in the winter, shopping men might enjoy the services of checkrooms for their overcoats. Hoving promptly ordered such a convenience in Tiffany's. But a *Herald Tribune* writer said checking of hats was frowned on: "Someone might mistake the customer for a Tiffany Vice-President."

Island has received 1000 books from the South Kingstown Lodge of Elks as a memorial to the late William Davis Miller, bibliophile and authority on Rhode Island history. The volumes were acquired when the Elks bought the Miller estate in Wakefield, R. I., for a lodge home.

1910

Albert and Mrs. Bennett enjoyed a delightful vacation in Europe last summer, and the memory of it is carrying them through the long winter. Their trip includes stops in Italy, France, Switzerland, Lichtenstein, and Austria. This year, Bennett is teaching at Boston College, while still living in Providence.

Ralph B. Farnum has moved to 17914 So. Gradley Rd., Artesia, Calif. He is keeping his house at Redondo Beach "for a place to go" but expects to occupy his time visiting sons at Portland, Ore., and Oakland.

Malcolm R. Jeffris tells us that a grandson, Donald K. Warfield, has been admitted to Brown and another to Princeton.

1912

John M. Price, Director Emeritus of the Southwestern Baptist Theological Seminary, has spent 30 weeks this year in 13 States attending conferences and conventions. "Mainly," he reports, "I have taught my book, *Jesus the Teacher*, which has been translated into Spanish, Portuguese, Chinese, and Arabic and which has sold about a quarter of a million copies." For 40 years, he was head of the School of Religious Education at the Fort Worth Seminary, the oldest in the South and the largest in the world.

1914

Dr. Reginald Poland, Director of the Atlanta Art Museum, journeyed to Wesleyan in November to judge the Third Juried Show of Regional Painting and Sculpture. Dr. Poland has made many trips to Europe to study art. In 1936 he was the Carl Schurz Fellow, German Speaking Countries, and in 1958 he had a fellowship as a guest of the West German government. He was awarded the Royal Order of Spain by King Alfonso for his work with Spanish art and artists in 1930.

Elmer G. MacDowell was named a Trustee of the Rhode Island Hospital at

the annual meeting of the Board in December.

1915

Roland Copeland lives in the "good" Democrat State of Connecticut, in a delightful town, Hamden, and he is still one of Brown's most loyal and enthusiastic alumni. Cope comes to every reunion and works for Brown constantly. He headed up the Brown Endowment Campaign for greater New Haven, and some of the most effective work he's doing is rounding up promising future students for Brown. He is married, has two sons, two grandsons, and two granddaughters, and he reports with great pride that the three families live within five miles of one another. His two boys (Larry was Brown '50 and Dick was UConn '56) are fast taking over the business of the Copeland Company, but Cope reports that he is definitely still active. Each winter he goes to Florida, staying at Vero Beach, and he has a summer home at Clinton, Conn. He plans to be with us at our off-year reunion in June.

Don Dike paid a return visit to Togus Veterans Hospital this fall. However, he was out by late November and headed for a stay in Williamsburg, Va., where his address is: 220 John Pickney Lane, c/o David Dike. He expects to stay at this address through March. "We called on the Bill Burnhams before we took off," he reports, "and we left them well settled on the mainland in a nifty little home."

W. T. Breckenridge has migrated from New Hampshire to Florida for the winter and is living at 200 Cortland Ave., Winter Park.

1916

Francis I. O'Brien, President of the R. I. Bar Association, took a stand last month on the controversial ruling which bans television cameras from courtrooms. "Television men, once they get their foot in the door, will broadcast what they think is entertainment, not education," he told an annual meeting of the Rhode Island affiliate of the America Civil Liberties Union. Quoting Francis Bacon, he said "The place of justice is a hallowed place."

Harry H. Burton, Civilian Aide to the Secretary of the Army for the State of Rhode Island, attended the annual conference of Civilian Aides held at the National War College, Fort McNair, Va., Dec. 3-4. Later in the month he was named Vice-President of the Rhode Island Hospital.

1917

Arthur B. Homer, Chairman of Bethlehem Steel Co., has announced that the firm will enter the big, competitive Midwest steel market by constructing a \$250-million-dollar finishing plant on the shore of Lake Michigan, about 30 miles southeast of Chicago. The company's eventual goal is to develop the plant into a fully integrated steel plant. Bethlehem is the nation's second largest steel producer.

1918

Cyrus G. Flanders headed a building fund drive to raise \$45,000 in Windsor

Locks, Conn., to add a wing to its library. When it was opened in November, a newspaper photographer pictured Cy's grandson at a story hour. John Mark Flanders, now 5½, has been taking out books for two years. He is the son of C. Glenn Flanders '49.

Dwight T. Colley was one of three new Trustees named in November to the Board of the Martha's Vineyard Hospital.

The new Governor of the State of Rhode Island and Providence Plantations, John H. Chafee, is the son of our classmate, John S. Chafee, Brown Trustee.

1919

John J. Hall has been named State Labor Director in Rhode Island by Governor Chafee. A former management official in the field of labor relations, John retired last May as Director of Industrial Relations at the Brown & Sharpe Mfg. Co., where he had been employed for 38 years. He served terms as Vice-President of the National Metal Trades Association and as President of the Association's Rhode Island chapter.

Judge Fred B. Perkins has been named

Some election winners

BROWN REPUBLICANS in Congress gained a third colleague in November when John W. Wydler '46 was elected from New York's newly formed 4th Congressional District. He joins veterans William B. Widnall '26 of the 7th New Jersey District and William H. Bates '40 of the 6th Massachusetts.

Wydler, said a New York writer, is "typical of the young, energetic force that the Nassau Republican Party is introducing to local voters." A native of Brooklyn, he was only 17 when he entered Brown as a Freshman. Two years later he enlisted in the Air Force as a private and became a Staff Sergeant in a chemical weapons company assigned to the China-Burma-India Theater. After his discharge, he held a commission in the Judge Advocate's Office of the Air Force Reserve.

Wydler earned Phi Beta Kappa recognition in his Junior year at Brown and was Football Manager. He took his law studies after the war at Harvard, with honors from the Harvard Law School Forum. He was admitted to the New York State Bar in 1950. He joined the U.S. Attorney's office in 1953, spending three years in the Civil Division enforcing Federal statutes and another three years as a Federal prosecutor. In 1959, he was appointed by the N. Y. State Commission of Investigation to head up a probe of New York City school construction.

Wydler met his wife, the former Brenda O'Sullivan, at a meeting of Republican Recruits in Floral Park. Married in 1959, they have one child, Christopher. He is active in a number of church, community, and professional associations.

In Other Elections

A total of 11 alumni were elected to seats in the Rhode Island General Assembly in November. The Senate includes Charles H. Bechtold '41 (R-South Kingston), E. Rex Coman '35 (R-Narragansett), George C. Cranston '26 (R-North Kingston), Thomas R. DiLuglio '53 (D-Johnston), and G. Ellsworth Gale '22 (R-East Greenwich). The six men in the House are Louis P. Alfano, Jr., '46 (R-Bristol), Robert Breslin '50 (R-Warwick), Raymond L. Davignon '49 (D-Pawtucket), Raymond R. Durfee '44 (R-Cranston),

FRESHMAN CONGRESSMAN: John W. Wydler '46, Nassau, will represent the 4th N.Y.

Joseph V. Ortoleva '41 (D-Providence), and Howard C. Sweet '20 (R-Charlestown).

In Massachusetts, Donald T. Bliss '61 was elected to the legislative seat formerly occupied by his late father, Carlton H. Bliss '24.

A Maryland victor was Evan M. Crossley '37, new County Commissioner for Washington County.

In local contests in Rhode Island, Thomas W. Pearlman '48 won election to the Providence City Council, one of two Republicans in an overwhelmingly Democratic chamber. A veteran there is the respected Edmund Wexler '27, who has served as majority leader. Cranston elected James DiPrete, Jr., '51 as its Mayor, while Frederic A. Charleson '50 will be a member of the Council. School Committeemen elected were James F. Duffy, Jr., '30 in Cranston, Robert Janes '47 in Barrington, Arthur S. Kirk '21 in North Smithfield, and Harvey A. Whipple, Jr., '49 in Warren. Domenic C. Canna '47 won a seat in the Bristol Town Council, while Edward H. Torgen '50 did in the Warwick Town Council.

DR. LOUIS R. ZOCCA '29, is the new Director of the Division of Humanities at Rutgers University Newark College of Arts and Sciences. A member of the State University Faculty at Newark since 1946, he is the author of books on Elizabethan poetry and the United Nations and recently translated Pulci's renaissance epic "Morgante Maggior." He formerly taught at Brown, where he also received his A.M. and Ph.D. France gave him its Legion of Honor and Croix de Guerre for wartime activity in the Counter Intelligence Corps.

an Honorary Trustee of the Rhode Island Hospital.

William H. Edwards, Providence attorney, has been serving as Chairman of the Rhode Island Rhodes Scholarship Committee. Another member of the committee was Dr. Marshall N. Fulton '20.

1921

Arthur S. Kirk has been elected to the School Committee in North Smithfield, R. I., for a six-year term. Art is Business Manager of the Blackstone Valley Gas & Electric Co.

The Alumni Office has received word of the death of Thomas A. Olney, Jr., on Sept. 6, 1953, in Chicago. He was the sixth in direct line from the Thomas Olney who, with Roger Williams and several others, founded Providence. Another ancestor was Christopher Olney, who was a Trustee in the early years of the 19th century. Thomas A. Olney, Jr., left Brown after a semester to serve in World War I and did not return to College Hill. He was with the American Telephone and Telegraph Co. for 32 years. He married Mary Louise Shidler in 1930, and they had one daughter, Mary Louise; Mrs. Thomas A. Olney, Sr., his mother, lives at 1154 East Fairview Ave., South Bend 14, Ind.

1922

Milton H. Glover, President of the Hartford National Bank & Trust Co., has been named chairman of a newly-organized study of Connecticut's stake in the European Common Market. It will lead to a conference in Hartford on Jan. 17, with

the Foreign Policy Association of Greater Hartford lending its sponsorship.

Charlie Pinkham and his wife, having deserted Marblehead Neck, are actively engaged in the real estate business at North Conway and Intervale, N. H., as Pinkham Associates. Since last winter they have been successfully specializing in A-frame camps, cottages, and small houses. According to Charlie, interest in the A-frame construction has been almost as phenomenal as the activities of his 10 grandchildren.

Ralph Copeland is President of the Boston Chess Club, which, incidentally, is the leading bridge club in the Hub. He occasionally meets Joe Riker and Brax Oxnard in tournament play. Cope has also been active in Masonry in the Grand Royal Arch Chapter of Massachusetts. Between all this, he has been a leading member of the eastern Massachusetts bar and a partner of Stephens & Copeland, 1106 Main St., Brockton.

Oscar Lapham found 1961 to be a year of many changes. He was tossed about from doctor to doctor and hospital to hospital. After a final operation in Boston last May we have high hopes for his complete recovery. He would be pleased to hear from classmates. His home being at 74 Beckwith St., Cranston.

Les Brace retired voluntarily last July from his purchasing position with Western Electric and is now, we assume, enjoying a pleasant existence far from Federal regulations and corporate irrationalities. With his outside activities and four grandchildren to watch, this life of retirement should not be boring. His home address: 676 Dorian Rd., Westfield, N. J.

Wilson C. Jansen led a discussion of encroachment by the Federal Social Security system upon Workmen's Compensation at the Nov. 28 meeting of the Hartford business and industrial representatives. He is a former President of the Hartford Accident and Indemnity Co.

C. Manton Eddy was one of 38 new incorporators elected at the annual meeting of the Hartford Hospital. He is Senior Vice-President of the Connecticut General Life Insurance Co.

Your correspondent acknowledges with thanks receipt from Louie Stack, former fellow drummer in that great fighting outfit, the BNTU, USNRF, a set of snapshots portraying life of the Campus sailors in the Fall of 1918. We hope to show these views to other veterans of the Hunt's Mills and Pawtucket campaigns at our next reunion, if not sooner.

CLARK FORSTALL

1923

Preparation for the 40th reunion went ahead when 15 members of the Rhode Island committee lunched together at the Brown Faculty Club on Dec. 13. They heard a preliminary report from a program committee, and the Class will receive the official schedule when it becomes final.

William B. McCormick, accepting the post of Reunion Chairman at the request of President E. John Lownes, Jr., reminds

us that the dates to save are from Friday, May 31, through Monday, June 3. Wives are included in all the plans, of course, for they have gotten to know each other through the years. An up-to-date Class roster is being prepared, and other committees (both regional and functional) will be set up.

Attending the December meeting were: Francis O. Allen, Arthur Braitsch, Townes Harris, Prof. Herbert M. Hofford, Theodore R. Jeffers, Lawrence Lanpher, Albert O. Lundin, John J. O'Brien, Richard S. Smith, R. Einar Soderback, Chesley Worthington, and Lownes and McCormick. Others heard from included: Nathaniel Chase, Dr. K. K. Gregory, Dr. Marsden Earle, Harvey Reynolds, and Ronald Smith.

R. E. Soderback, Superintendent of Public Buildings for the City of Providence, has another major project to supervise. He will oversee construction of a Central-Classical High School complex, a project involving \$8,500,000 assured by voters' referendum in November.

Richard C. Smith is heading up retirement programs for City employees in Providence as chief of his department.

1924

Coach Clarence Chaffee's Williams soccer team defeated archrival Amherst, 1-0, in the final game to finish the season undefeated and gain a second consecutive Sampson Cup. The victory also meant another Little Three title for his team in Williamstown.

The Bald-Headed Row

STATISTICS alone are not enough to link smoking with cancer, as anyone who frequents a burlesque theater should know, according to Dr. Harry S. N. Greene '25, Chairman of the Pathology Department at the Yale School of Medicine. Dr. Greene drew the comparison while testifying recently in a damage suit brought against a tobacco company, by an individual who claims its cigarettes gave him cancer.

In connection with statistics that seem to show a link between cigarette-smoking and lung cancer, Dr. Greene was asked, "In your opinion does a statistical association between two things mean one is the cause of the other?"

"Not at all," he replied. "I'm sure that anyone who has ever been to a burlesque house knows that in the front row many of the occupants have bald heads. This occurs with such frequency that this row is called the bald-headed row. And there is a beautiful statistical association between bald headedness and the desire to see young ladies in tights. Does the frequent looking at the young ladies in tights make one bald-headed? No, of course not!"

Vallee and Widnall

"Two of the more unlikely Ivy League contemporaries," said *Variety* last fall, "are currently engaged on the national scene in a gentlemanly shoving match over so distasteful a thing as money. Rudy Vallee, Yale '26, and Rep. William B. Widnall (R-N.J.), Brown '27, are close to grabbing each other by the old-school tie over how much culturally exchanged U. S. performers should get for their overseas stands." Vallee was replying to an earlier expression of Widnall's views in *Variety*.

Widnall had another colloquy, with less conflict involved, with John Ciardi in the *Saturday Review* for Dec. 1 about the National Culture Center.

1925

Sarkis Tatarian was sworn in as City Solicitor in East Providence on Dec. 3.

Lucien Capone, GOP Town Chairman in Bristol, had a great deal to celebrate in November when his party made strong inroads in the traditionally Democrat town.

Alumni House recently received word of the death of James K. Hamil, Jr., on Mar. 9, 1957. He was President of Hamil Lumber Co. (wholesale) in Tampa, Fla.

1926

Jacob Goodman is a partner in the Providence law firm of Goodman, Semonoff & Gorin, with offices at 1200 Union Trust Building.

Richard Holmes Bailey, son of Prof. Percy L. Bailey, Jr., and the late Gladys Holmes Bailey, Pembroke '26, was married on Dec. 2 to Miss Lois Ann Trella, daughter of Mr. and Mrs. N. Peter Trella of Bay Shore, Long Island. Dick, a graduate of Eaglebrook, Governor Dummer, and Trinity is with Liberty Mutual Insurance Co., while his wife is associated with the Edgewood Division of the Pilgrim State Hospital in Brentwood. They'll live in Bay Shore.

George Y. Loveridge is back in the east, having returned to the Providence *Evening Bulletin*. He is a special feature writer, with a roving assignment.

Ralph Crosby, President of Old Colony Co-operative Bank since 1948, has been named as its new Chairman of the Board. He succeeds Edward H. Weeks '93, who died in September.

1927

Dr. Franklin D. Elmer, Jr. returned with Mrs. Elmer in the fall from a six-week visit behind the Iron Curtain. They drove their own car, traveling independently more than 3,000 miles in Yugoslavia, Hungary, Czechoslovakia, and Poland. They also traveled over 6,000 miles in Russia by car, plane, bus, and train. To study family and religious life under Communism, they attended many religious serv-

ices and made a rare visit to a worker's apartment house in Tbilisi. While in Europe, Dr. Elmer was also guest preacher at the Vienna Community Church and also at the American Protestant Church in The Hague. Dr. Elmer has been Minister at the Woodside Church in Flint, Mich., since 1933.

Edmund Wexler, who was reelected to the Providence City Council in November, has been majority leader since 1947. This will be his 12th term in the Council, starting his 23rd year. Wexler is a member of the Boards of Miriam Hospital, Jewish Family and Children's Service, Inc., and Providence Fraternal Association.

Kirtland J. Keve, Superintendent of Agencies for the National Life Insurance Company of Vermont, is serving as a member of the American Red Cross Board of Directors.

1928

Rhode Island members of the Reunion Committee are meeting and setting up plans for the 35th get-together. We are looking forward to a large response in attendance. The local men believe that classmates who have been away from the Campus for 10 or more years will be quite pleased with the new buildings erected on the Hill.

Julian Solinger is a Visiting Professor of Zoology at UCLA. He writes that he and his wife Amy are enjoying themselves in Los Angeles.

Classmates extend their sympathy to Judge Tom Paolino in the loss of his father.

Prof. Saunders Redding of Hampton Institute gave the first of a series of lectures on "The African Literary Scene" in New York on Nov. 28 under the auspices of the American Society of African Culture. Last July he completed a six-month lecture tour of African colleges and universities sponsored by AMSAC. He was keynote speaker at the Conference of African Writers of English Expression in Kampala, Uganda, during one of his engagements.

The home of Mr. and Mrs. Martin M. Silverstein was featured in the *Providence Sunday Journal* Home Section for Nov. 11. The main house at Brookway Rd. and Grotto Ave. in Providence is decorated and furnished "with a luxurious serenity while the basement recreation room has the sturdy, lived-in appearance of a rustic cabin," said the writer. She also noted "golf trophies of both Mr. and Mrs. Silverstein from the Ledgemont Country Club" and "scenes from various plays Mrs. Silverstein has appeared in at The Players." (She was Pearl Weinberg, Pembroke '26.)

Earl Bradley and Mrs. Bradley were among the new members named to the Corporation of the Rhode Island Hospital at the annual meeting in December.

1929

Harold S. Sizer, Director of Design for Brown & Sharpe Mfg. Co., was a speaker in November when the Standards Engineers Society groups in Rhode Island and Boston held a technical meeting and leadership conference.

RAY B. OWEN '30, Executive Vice-President of the Old Colony Co-operative Bank since 1951, has been named President of the Providence institution. He joined the bank in 1935. Owen succeeds Ralph R. Crosby '26, who becomes the Chairman of the Board. (Photo by Roberts)

Archie Smith, legal adviser to the State Legislative Council, has been named a recipient of the 1962 Amudim Award of Torah Umesorah, the National Society for Hebrew Day Schools. Archie was a founder and first President of the Providence Hebrew Day School.

1930

Wilbur Bromage had a fine tribute on the editorial page of the *Providence Journal* a few days after his death. "In any big enterprise," said the writer, "there has to be someone administering the details that make it go but which are not evident on the surface. Bill took care of all these things and took care of them superbly."

James F. Duffy, Jr. was elected to the School Committee in Cranston for a four-year term. Jim has been serving as Secretary of the Cranston Housing Authority.

1931

Fred L. Harson has been elected Secretary-Treasurer of the Rhode Island Association of Investment Firms. He is head of F. L. Harson & Co. of Providence.

1932

Samuel D. Mott was unsuccessful in his bid to win another two-year term as Senator from Block Island, losing by eight votes to his Republican opponent.

T. Dexter Clarke is a member of the School Building Committee in East Greenwich.

1933

Edward P. Triangolo, President of Johnson & Whales School of Business, was on hand to accept the keys to the Plantations Club Building when his school moved into its new quarters there in December. The five-story brick building is located in downtown Providence.

CAPT. FORREST A. PEASE '37, Commanding Officer of NAS Weymouth, Mass., wore his Varsity sweater when he arrived at Aldrich-Dexter Field by helicopter. Within minutes, however, he was on deck in dress blues to receive the welcome of Col. William F. Lantz USMC, who is in charge of the

Brown NROTC Unit. Captain Pease, a career officer in the Navy since 1939, was an Compus to talk to the Midshipman Battalion on Naval aviation. Pease won the New England Intercollegiate Wrestling Championship in his Senior year and also earned a Varsity B in football.

Bill Bradshaw has been named to the Corporation of the Providence Lying-In Hospital. Bill continues as Assistant to the President at the Rhode Island School of Design.

Dr. Warren Andrew, who received his Sc.M. degree from Brown in 1933, has received a grant of \$125,000 from the U.S. Public Health Service for a five-year study. The inquiry, dealing with changes in various immunity processes brought about in the human body by aging, will be conducted at the Indiana University Medical Center. Long interested in geriatrics, Dr. Andrew received the Annual Award of the Gerontological Foundation in 1959. He was recently reappointed to a three-year term on the Indiana State Medical Association's Commission on Aging.

1934

Richard S. Kops is Vice-President of Lawson Products, Inc., manufacturer of foundation garment fabrics, and is in charge of its Highland Division in Pawtucket. One of his recent fashion shows caught the imagination of garment manufacturers, with the result that (according to the press) a host of new ideas were born.

Carleton E. Hammond has been named to the Board of Directors by the National Iron Bank of Falls Village, Conn. Vice-President of the State National Bank of Connecticut, Carleton remains active in the community. He is Vice-President of the Boy Scout Council, a Director of the YMCA, Treasurer of the United Fund, and a Director of several corporations.

Joseph S. Stookins is Chairman of the Modern Language Department at Loomis School.

Frank G. Chadwick, Jr., Senior Vice-President of the First New Haven National Bank, has been elected Chairman of the Connecticut Directors of the New England Council.

1935

Alfred H. Joslin served as chief counsel for John Chafee during the 23-day period between the election and the count of the mail ballots in Rhode Island. This was a familiar role for the Providence attorney, who served Governor Del Sexto in the same capacity during the famous long-count of 1956.

William T. Broomhead has been named State Purchasing Agent by Governor John

Chafee of Rhode Island. GOP State Chairman since 1957, Bill resigned from that position following the November election.

Howard F. Barker, Jr., a veteran of 27 years with the J. C. Hall Co., Pawtucket, has been elected to the Board of Directors. He is Vice-President of Manufacturing with the firm.

Vincent DiMase, Director of the Department of Building Inspection for the City of Providence, lectured at the 1962 Institute for Municipal Building Officials of New England Nov. 26-29 at the University of Connecticut. At that conference, he was elected to the Executive Committee of the Building Officials Conference of America.

Elwin T. Gammons has been elected Chairman of the Advisory Board of the New England State Association of Insurance Agents. Vice-President and Treasurer of the John A. Gammons, Inc., insurance agency of Providence, he is a former President and immediate Past State National Director of the Rhode Island Association of Insurance Agents.

1936

James G. France, Common Pleas Court Judge in Ravenna, O., has been named to

a seat on the 7th District Court of Appeals by Gov. Michael V. DiSalle. Judge France was elected judge of the Ravenna Municipal Court in 1953 and again in 1959 and was first elected Common Pleas Court judge in 1961. In commenting on the appointment, the *Record-Courier* had this to say: "Throughout its history, Portage County has made outstanding contributions to the judiciary of Ohio through its native sons. The choice of the Hon. Judge James G. France of Twin Lakes follows in the best tradition."

John D. Glover returned to the Campus in December. The Professor of Business Administration at Harvard discussed "The Role of Business in Modern Society" in the Arnold Lounge of the West Quad.

We recently learned of the death on March 12, 1960 of Milton W. Lipper, 2nd, who was Vice-Ambassador for the United States in Malaya. During World War II, Lieutenant Lipper was twice decorated for bravery in the Italian and French campaigns. He served in the Counter-Intelligence Corps.

1937

Harold I. Hassenfeld has been elected President of the Lead Pencil Manufacturers Association of America. He is President of the Empire Pencil Co. of Shelbyville, Tenn., and Chairman of the Board of its parent company, Hassenfeld Bros., Inc. of Pawtucket.

Evan M. Crossley was elected County Commissioner for Maryland's Washington County in the November voting, having filed as a Republican. He is a former Juvenile Court Judge and an active community leader. Some current commitments include the following: State Director of the Maryland Congress of Parents and Teachers, First Vice-President of Council of Parents and Teachers, President of the Community Services Council of Washington County, member of the County Youth Commission, and a Director of the Hagerstown Playground Committee, of Big Brothers, and of the United Fund. He has been a member of the Advisory Board of Hagerstown Junior College since its founding and a member of the Hagerstown Chamber of Commerce. He is a Past President of the Washington County Bar Association, Hagerstown Optimist Club, and Hagerstown Junior Chamber of Commerce. In addition to his eight years as a Juvenile Court Judge, he was formerly Maryland Judge Advocate for the American Legion. His father is Dr. Moses L. Crossley '09, former Brown Trustee.

Charles M. Kenyon brought his son to College Hill for a December interview on admission to Brown. They live in New Canaan, Conn., and Charles is an account executive with J. Walter Thompson Co., New York. (This is the sort of note Kenyon used to write himself when he was a graduate student at Brown and edited "Brunonians Far and Near" for this magazine for some time.)

Col. Frederick C. Lough has been appointed Professor and Head of the Department of Law at the United States Mil-

itary Academy. Colonel Lough also has been named the Academy's Staff Judge Advocate. He attended Brown one year prior to his appointment to the Academy.

William G. Tyrrell of Albany has been elected Editor of the *New York Folklore Quarterly*. Since 1951 he has been Historian in the Division of Archives and History of The State Education Department, in charge of the work of officially-appointed local historical societies. During this time Bill has been a contributing editor of the *Quarterly*, a publication in its 18th year which is published by the New York Folklore Society, Cooperstown.

Jacob Miller of Mount Pleasant High School served as a member of an evaluation team of 22 educators assigned to complete a study of North Providence High School in the fall. Also on the committee was Clinton S. Johnson '36 of Cranston High.

Donald L. Daniels is observing his 25th anniversary in estate planning. With offices located in Chestnut Hill (Mass.), he and his associates provide consulting services which include life and health underwriting and actuarial studies on pensions and profit-sharing for individuals and business firms.

1938

George H. Springer is Chairman of the Department of Geology at the University of Dayton. Last fall he took part in the visiting-scientist program being offered Ohio high schools by the Ohio Academy of Science. George has been a geologist with the Tennessee Valley Authority and the U.S. Geological Survey.

Walter Covell played the part of Billis in the November production of "South

HENRY C. HART, JR., '35 had a Christmas present from Noyes & Company of Providence in promotion to be a Vice-President of this large advertising and public relations firm. He is its director of radio and TV and also serves as an account executive. He joined the agency in 1954 after working as an actor on Broadway, in stock, on television, and in motion pictures. He is the son of Henry C. Hart '01.

A. J. PEREIRA '38 has been named Director of Agency Sales for Trans World Airlines and moves to New York after 12 years in Miami, Fla., as District Sales Manager. Interline business and tours also fall under his supervision. His 16 years with TWA include service in Lisbon. Pereira, a leader in alumni activity in Miami, has been a Vice-President, Associated Alumni.

Pacific" put on by the Barrington Players. Walter has retired from the Town Council in his home town after an extended tour of duty.

Dr. Hudson Thompson is Chief of Surgery at Goshen (N. Y.) Hospital. He is also a member of the staff of Middletown, Newburgh, Warwick, and Port Jervis hospitals.

Edmund A. Barber has been elected a Vice-President of the New York State Division of the American Cancer Society. He is Laboratory Administration Manager at the Owego IBM Space Guidance Center.

C. Woodbury Gorman has been elected President of the Catholic Association of College Alumni of Rhode Island. He is a salesman with M. S. Alper & Son, Inc., Providence.

1939

John R. Magee, Jr., formerly Superintendent, Nylon Development Operations for Chemstrand Co., has been appointed Manager, Operations and Technical Services, in the company's expanded Development Department.

Robert B. Clark has been promoted to District Sales Manager in the Buffalo sales office of Jones & Laughlin Steel Corp. A veteran of nearly 25 years with the firm, he had been Assistant District Sales Manager in J&L's Chicago office.

Ivy Notes, the newsletter of the Ivy League Club of Sarasota, Fla., lists Wyckliffe Luhn as a new member. Formerly President of his insurance firm in Santurce, Puerto Rico, he is now in Sarasota at 2405 Nassau St., where he is active as a consultant.

Emery R. Walker expressed pleasure in a reference in a Southern California sports column: "Gourman states that Notre Dame now finds itself within the aristoc-

IN BAD TOLZ, Germany, Maj. Harold C. Kinne, Jr., '49 received the U.S. Army's Certificate of Achievement for outstanding work as an engineer specialist on nuclear effects. He had presented briefings on such effects before the British War College and German General Staff and for dignitaries of NATO and the United States. Kinne (left above) also earned his Sc.M. in physics at Brown and is the son of Harold C. Kinne '15 of Harwichport, Mass., and Mrs. Kinne, Pembroke '14.

raey of academic atmospheres of such institutions as California, Yale, UCLA, Stanford, Michigan, Washington, Northwestern, Wisconsin, Cornell, Brown, and others." The Director of Admission at Claremont Men's College wrote that he likes to find Brown on "anybody's casual list of the great universities."

Ralph Semonoff is in his second year as Editor of the *Rhode Island Bar Journal*. The Providence attorney is a partner in the firm of Goodman, Semonoff & Gorin, with offices at 1200 Union Trust Building. Goodman is Jacob Goodman '26, while a colleague is Owen B. Landman '55.

Foster B. Davis, Jr., managing partner of Davis & Davis, Providence investment firm, has announced the purchase of the Pawtucket investment house of Herbert H. Brooks & Co.

Charles E. Gross has been named Assistant Treasurer and Assistant Secretary of the Rhode Island Hospital.

John J. Harrington of Fall River was a candidate for District Attorney last fall. He has had an active trial practice since returning in 1946 from duties abroad with the War Crimes Commission.

Melvin Swig, finance and real estate investor, has been named to the Housing Authority in San Francisco. This is the first city position he has held. He and Marcia and their four children live at 110 Cherry St.

John Cioci's son, Lou, was a standout tackle for Boston College last season, his last at the Heights. The 6-2, 220-pounder was named to the All-New England and All-East teams and was selected to play in the North-South football game. At the campaign's close he was drafted by teams in both professional circuits and signed with the Dallas Cowboys.

1940

John McLaughry was asked to list his greatest thrill as a player for a feature on all Ivy League coaches appearing in the football programs last November. He replied: "It came as Co-Captain of the Eastern College All-Stars who beat the New York Giants, 16-7, at the Polo Grounds in 1940. This was the year that the All-Stars for the first time were lesser-known players from some of the smaller colleges. Previously the officials had taken most of the nationally known players from the Chicago All-Star Game. I played some 40 minutes of the game and thoroughly enjoyed beating the Eastern professional champions, who then numbered such outstanding pro veterans as Mel Hein, Tuffy Leemans, Ward Cuff, Ken Strong, and Hank Soar. It was the first time the Giants had been beaten by a college all-star team." Manrodt and Nash also played with the collegians under Tuss McLaughry.

H. B. Goldstein, Technical Director of the Warwick Chemical Division of Sun Chemical Corp., addressed the 1962 annual convention of the American Association of Textile Chemists and Colorists in Atlanta on Nov. 15.

Dr. Harold W. Pfautz, Associate Professor of Sociology on the Hill, spoke on "The New Negro, the Emerging American" at a late fall meeting of the Rhode Island Council of United Church Men.

Cliff Lathrop moved to Sarasota on Jan. 1, where he is associated with the firm of Goodbody & Co., members of the New York Stock Exchange. His address: 3567 San Remo Terrace.

David L. Hall has been appointed Manager of the West Milton test site of the Knolls atomic power laboratory. The plant

is operated by the General Electric Company in cooperation with and under the technical direction of the naval reactors branch of the Atomic Energy Commission.

Russ and Mrs. Field were among the new members named to the Corporation of the Rhode Island Hospital in December.

1941

Dr. Abraham Schwartz was elected Secretary of the Providence District Dental Society at the group's November meeting.

1942

Douglas E. Leach, Associate Professor of History at Vanderbilt University, spoke at the first meeting of the season of the Rhode Island Historical Society in November. His subject: "King Philip—Front Page News in London." Professor Leach, a native of Providence, is the author of the novel, *Flintlock and Tomahawk*.

Dr. F. Karl Willenbrock is Associate Dean and Director of Laboratories of Engineering and Applied Physics at Harvard. In these capacities he is concerned with both the undergraduate and graduate instruction programs in these fields, and also with the pre-doctoral and post-doctoral research programs. His major areas of technical interest, in which he has published several articles, are microwave physics and solid-state electronics.

George O. Ellis has been promoted from Division Sales Manager of the Northern Rocky Mountain Division of Schlumberger Well Surveying Corporation to Division Manager of the Southern Rocky Mountain Division. His new address: 3760 Plymouth Ave., Littleton, Colo.

Aldo Bernardo is Professor of Italian Language and Literature at Harpur College of the State University of New York. During his three years at the college he has held the position of Chairman of the Division of Humanities.

Paul Harrison has moved to San Juan for more effective dispatch of his duties with the Puerto Rico News Service. He had been working out of its New York office and living in Greenwich, Conn., but his new address (P.O. Box 11216) will be good "for an indefinite period."

Judge Joseph R. Weisberger was named to the Corporation of the Rhode Island Hospital in December.

1943

Rabbi Maurice Davis continued a custom he has followed for 16 years when he returned to his native Rhode Island to celebrate Thanksgiving and his mother's birthday. He also continued his long-established custom of preaching the day after Thanksgiving at his boyhood temple, Temple Beth El. Rabbi Davis heads the Indianapolis Hebrew Congregation, a Reform Temple with 850 families.

An energetic man with a deep social concern, he was Government Chaplain at the U.S. Public Health Service Hospital for drug addicts in Lexington, Ky., for five years while serving a Lexington Hebrew congregation. His experience at the Federal hospital and subsequent study have convinced him that there must be a drastic

change in the U.S. policy of treating dope addicts as criminals. He would prefer that they be considered as sick persons. He and others in Indianapolis are pushing for a broad investigation by a social welfare agency of the problem of addiction and the possibility of care and treatment on the local level.

Robert Nissley, Assistant Vice-President with the W. A. Clarke Mortgage Co., Harrisburg, Pa., recently completed a week-long course at Michigan State sponsored by the Mortgage Bankers' Association of America.

Lester J. Millman has been promoted to Assistant Professor in the Department of Interior Architecture at the Rhode Island School of Design.

1944

Dr. Howard G. Baetzholt, Associate Professor of English at Butler College, spoke recently at the meeting of the Mark Twain Association of Indiana, Inc.

Dr. Davis Leonard is Professor of Latin American History at the University of Massachusetts.

When Raymond M. Durfee was elected to the R. I. House of Representatives, it was the first bid for public office for the GOP candidate, who is Manager of C. I. Durfee Hardware in Cranston.

1945

Henry D. Sharpe, Jr., was Campaign Chairman of the United Fund Drive in Rhode Island this year, and he had the pleasure of announcing on the closing night that the fund had rocketed past its goal with the highest amount ever raised in the State's history of federated giving. The total was \$53,000 more than the 1962 goal of \$3,209,678.

Two classmates were among the officers elected by the Providence District Dental Society in November. Dr. Edwin L. Vo-

GEORGE H. NORTON '51 has been named partner in the law firm of Low, Ball & Norton with its offices in San Francisco and Menlo Park, Calif. At the latter office he specializes in trial defense of insurance carriers in injury cases.

tolato is President-elect and Dr. Gennaro B. M. Savastano is Treasurer.

1946

Henry D. Epstein, Manager of Precision Controls Department of Metals & Controls, Inc., Attleboro, a division of Texas Instruments, has been awarded U.S. patents 3,040,283 for an electric heater assembly and 3,023,287 for a thermostatic device.

Luther Francis is Manager of the Chester L. Jordan Insurance Agency, Portland, Me. He has served as Chairman of the United Fund's Public Service Department and as Vice-Chairman of the Fund's Budget Committee. Luther and Betty have two sons and a daughter.

1947

Roger Williams has been elected President, Secretary, and Treasurer of the Massachusetts Brewers Association. Associated with the Carling Brewing Company since 1953, Roger is currently the firm's Regional Vice-President and General Manager, serving the northeast region from the Natick, Mass., headquarters.

Robert J. Janes, elected to the School Committee in Barrington, R. I., is in the insurance business, associated with Starkweather & Shepley, Inc., of Providence.

Domenic C. Canna, in nearby Bristol, was elected to another two-year term on the Town Council. The edge on his Republican opponent was slim, only 16 votes.

Howard Craft is teaching Latin and German at the Barnard School for Boys, Riverdale, N. Y.

Jack Fooks has been promoted to Operations Manager at Westinghouse Corporation's Television Radio Division in Edison, N. J. He had been Manager of Engineering of the firm, which he has been with for 15 years.

Jim Sisco has joined Mutual of New York as Assistant Manager of its Providence agency. He had been an insurance consultant with Metropolitan Life in Providence.

Gordon L. Stuart has left Dallas and moved to Akron, at 590 Rotunda Ave., where he continues with IBM Electric Typewriter Division.

1948

LCDR William D. Chatteleton, presently serving as Executive Officer on the USS Goodrich DDR 831, has been selected for promotion to Commander. He is spending his second seven-month tour on deployment with the Sixth Fleet in the Mediterranean.

1949

Dr. Harvey S. Whipple, member of the dental firm of M. A. Denby & Associates, was elected to the Warren School Committee in November, replacing Richard L. Gemp '51 who retired after eight years on the Board. Dr. Whipple, with six children, is a member of a very "productive" school committee. The school superintendent has six children, the chairman has eight, and other members have seven, five, and three, making a total of 35 offspring for the six men.

William E. Lovejoy was appointed City

HARLEY R. DERLETH '51 is moving to Leven, Fife, Scotland, on assignment to the Henry Balfour & Company staff there. It was bought early last year by Pfudler Permutit, which Derleth had served as Manager of the Rochester plant. He joined Pfudler in 1956 as engineer.

Solicitor in Lebanon, N. H., effective Nov. 19. For the past four years he has practiced law in Lebanon, and has been Associate Judge of the Municipal Court.

Donald G. Huggins has been promoted to Manager of Office Services Division with Prudential Life Insurance Co. He has been with the firm since 1953, most recently as Assistant Manager of Ordinary Issue.

Roland J. Pepin, Councilman in Johnston, R. I., has been leading a campaign to build a Boy's Club in the town.

Bill and Ruth Gregg had such a successful first year in operating the Historic South Hero Inn in South Hero, Vt., that they elected to remain open throughout the winter months. The kitchen is Bill's department, and some of his dinner suggestions are mouth-watering. In the Gold Room there is a "special concoction," the Goldenrod Cocktail. (For the uninformed, we note that South Hero is on Grand Isle.)

1950

Curvin J. Trone, Jr., has been appointed as Whirlpool Corporation's executive representative to the S. A. Royal Corporation of France. Whirlpool recently purchased a controlling interest in the corporation, a leading French producer of refrigerators. Trone joined Whirlpool in 1957 as Director of Budgets and later was named Assistant to the President.

Robert J. McDonough, former Professor of Taxation at New York University, is now a member of the Boston law firm of Herrick, Smith, Donald, Farley, and Ketchum. In addition to his law practice, he also serves as Instructor in Taxation at Boston University.

John P. Boucier has resigned as Town Solicitor in Johnston, R. I., to accept appointment as attorney for the Housing Authority there.

Dr. Bernard J. Bernstein of North Providence has been named to the R. I. Board of Examiners in Optometry. The appointment was one of the last made by ex-Governor John Notte.

Jack Thompson has opened his own business, the Colonial Chemical Co., 97 Water St., West Haven. The firm specializes in boiler-water treatment and air-conditioning business, in addition to handling the filtering facilities for swimming pools.

John D. Davis is at Yale as an Assistant Professor in the Department of Psychology.

Fred Kozak, retiring President of the Southeastern Massachusetts Football Officials Association, has been named to the Board of Directors.

Robert C. Gibbs, who has been with the Rhode Island Hospital Trust Bank since 1959, has been elected an Assistant Trust Officer.

Maurice A. Bissonnette is Accounting Manager with New England Tel & Tel in Boston.

Bruce C. Collins is Director of Sales at the Hotel Somerset in Boston.

Fred Charleson, Providence attorney, has been elected to a second term on the Cranston City Council. Earlier in 1962 he was named "Man of the Year" by the Cranston Jaycees.

William H. Leys is Executive Director of the Newport Redevelopment Agency. The City recently approved an urban renewal bond issue, something Bill had been pushing for during the past year.

Lincoln E. Barber, Jr., has been promoted to Assistant Vice-President of the National Shawmut Bank of Boston. A former Director of the New England Association of Credit Executives, Inc., he joined Shawmut in 1951.

1951

Andrew M. Hunt of the Providence office of Merrill Lynch, Pierce, Fenner & Smith has been elected President of the Rhode Island Association of Investment Firms.

At St. George's School in Newport, a seminar on the Common Market was being held, says James T. Kaull in the *Rhode Islander*. "The big hit by a visiting lecturer was registered by Lawrence N. Spitz of Providence, Sub-District Director of the United Steelworkers of America. Promised a real, live labor leader, some of the boys anticipated a man with unpressed pants, an unlit cigar, and a rain-soaked picket sign. The impact made by the urbane, highly articulate Mr. Spitz (Brown University A.B., *magna cum laude*; Phi Beta Kappa) is still talked about at the school."

James V. Fusco has been named New Products Coordinator for the Synthetic Rubber Division of Enjay Chemical Company of New York, a division of Humble Oil & Refining Co. He had been head of the Elastomers Group in the company's Market Development Division.

Socrates A. Lagios, Chairman of the English Department at Concord-Carlisle High School, Concord, Mass., had an arti-

IN HIS FATHER'S FOOTSTEPS: Donald T. Bliss '61 of North Attleboro was elected to the Massachusetts legislature, succeeding the late Carlton Bliss '24 in his political debut.

cle, "Let's All Sit Around the Fire," published in the *Peabody Journal of Education* in September. A poem, "A Sprig of Green," has been accepted for publication in *The Literary Review*.

Joseph J. Buckett was coordinator of the 21st annual Institute on Federal Taxation, held in Rhode Island in November. He is Director of Institutes and Special Services at the URI Extension Service.

Henry M. Healey has joined H. C. Wainwright & Co., as a registered representative. Providence offices are in the Hospital Trust Bldg.

James DiPrete, Jr., has been elected Mayor of Cranston, defeating the Democrat incumbent by approximately 600 votes. Jim, an attorney, had been Assistant City Solicitor for six years under Republican administrations.

Robert A. Fearon is with IBM in New York City, working on its corporate advertising. He was formerly with Bruce Friedlich & Co. as Vice-President.

Dr. Albert A. Capozzoli has opened a dental office at 7630 Post Rd. (Rt. #1), North Kingston.

1952

William R. Zakariasen is a member of the Metropolitan Opera Company in New York City for the third season. Last summer he made his fourth trip to Europe, singing with several groups. After leaving Brown at the end of his Junior year, Zakariasen studied music at the University of Michigan. He was later a pupil of John Brownlee and others in New York and sang with the New York Opera Company before moving to the Met. He made his solo debut with the Met in *La Traviata* in January, 1962, according to a clipping we've received.

Ben McKendall, Director of Admissions at Occidental College, returned to Brown Nov. 9-10 to attend a meeting of the As-

sociated Alumni, of which he is Regional Director. While on the Hill he took in the Homecoming football game with Cornell and the Alumni-Varsity basketball contest.

Dr. Anthony Kooharian has been appointed Manager of Mathematics Research at the Applied Research Laboratory of Sylvania Electronic Systems, Waltham, Mass.

Paul B. Alexander has been appointed an Instructor in Geography at Wisconsin State College, Stevens Point.

Frank J. Gaffney, 3rd, has been named Assistant Project Engineer of the Centaur project in San Diego for the Astronautics Division of General Dynamics Corp. He recently spent some time in New Mexico helping to complete work on the installation of Air Force Atlas ICBM launching complexes near Roswell.

The Rev. and Mrs. Harrington M. Gordon have been named to the Corporation of the Home for Aged Men and Aged Couples in Rhode Island.

Benjamin D. Berkman has joined Crompton & Knowles in Worcester, where he is in corporate marketing research. He had been with Texas Butadiene & Chemical Corp. in New York City.

Ed Sherin has the pleasure in the fall of directing "Mr. Roberts" for the Equity Library Theater.

Capt. Peter Tsouprake, having completed his Air Force course for technical instructors at Randolph AFB, Tex., has been reassigned to Mather AFB, Calif., for instructor duty.

1953

Melden E. Smith, Jr., is at Suffield Academy, where he is teaching European History and acting as Faculty Adviser for the Press Club. After leaving the Hill, he spent five years as a navigator-bombardier with the Strategic Air Command.

Edward E. Feleppa, Jr., has been named Eastern District Sales Manager for Buckbee Products, Inc., of Chicago. His office is at 53 Pines Lake Dr., East Pines Lake, Wayne, N. J.

David I. Kramer, an attorney with the Labor Relations Board for the past four years, submitted his resignation in November to become associated with the law firm of Delson and Gordon in New York City.

Eugene M. Nawrocki, a June graduate of the Boston College Law School, has been admitted to the Massachusetts Bar. He is an officer of Middlesex Financial Management Corporation and is associated with Boston Manufacturers Insurance Company in Waltham.

1954

Dr. John F. Pendleton is a resident chemist with Borg-Warner Corp., Des Plaines, Ill. He has two children, Michael R. (4) and Ann Elizabeth (1½).

Roger Carmel, who got his start in Sock and Buskin, has taken over the role of Cardinal Wolsey in the dramatic stage hit, "A Man for All Seasons."

Jerry Burrow plans to stay at Yale another year for his final period of residence training; he will take a fellowship in metabolism.

Richard M. Borad and John E. Orton, 3rd, were admitted to the Rhode Island Bar in November.

1955

In an effort to help the Class become more solvent, and therefore of more help to the University, annual dues have been set at \$2. Classmates are asked to send their checks to John Monaghan, c/o BOX 8079, Brown University, Providence 12.

Eric D. Schwartz is with Mauchly Associates, Inc., Fort Washington, Pa. This is a management consulting firm specializing in the planning, scheduling, and control of new construction projects by the use of a new management technique, the Critical-Path Method.

John M. Barnes, Jr., a graduate of the Boston University Law School, passed the Massachusetts Bar last fall. He is associated with his father, John M. Barnes, in the firm Barnes & Barnes in Lynn.

Benson Lake has accepted a position as a registered representative with John C. Legg & Co., Baltimore.

Owen B. Landman, Providence attorney, has two Brown principals as associates in the firm of Goodman, Semonoff & Gorin: Jacob Goodman '26 and Ralph Semonoff '39. Their offices are at 1200 Union Trust Building.

1956

Ali N. Hakam, a resident of Nigeria, is Manager of the African Office of Mosler Internacional, S.A., a subsidiary of the Mosler Safe Co. of New York City. From Lagos he travels within Nigeria and to the neighboring African countries. "News about Brown is most welcome in these parts," he writes. His address: c/o A. G. Leventis, Technical Division, P.O. Box 159, Lagos, Nigeria.

William T. Brightman, III, has been elected Assistant Treasurer of the State Street Bank and Trust Co., Boston. He will serve as personnel officer in charge of the Depositors' Service Division.

1957

Palmer D. Sparkman last summer sailed aboard the 12-meter Columbia in the America's Cup trials. Then in September he served as an advisor on rigging for the defender, Weatherly. Meanwhile, he covered the Cup races for NBC radio and television. When he's not sailing, Palmer is a corporate insurance broker with Johnson & Higgins, N.Y.C. His business takes him to Florida, Houston, and as far south as Argentina.

Lt. Harold J. Sutphen is living in Watford, Conn., with his wife and young son and daughter. He has been in command of a Navy experimental ship, the USS Fairview (EPCER-850) for a year, with New London his base.

Lt. George B. Newton, Jr., is another classmate with interesting Navy duty. He has been in the submarine service and until March will be attending Advanced Nuclear Power School in Bainbridge, Md. Next step will be six months at a prototype reactor in either Windsor Locks, Conn., or Milton, N. Y.

Dr. L. Michael Snyder is interning at Boston City Hospital. In July he will be

heading for Los Angeles with his wife, Barbara, and their daughter for a residency at Wadsworth General V.A. Hospital.

Capt. Kenneth S. Latchis gives his post as 66 TAC Hospital, USAF, APO 17, N. Y.

Alan R. Shalita is studying at Bowman Gray School of Medicine in Winston-Salem, N. C. He has been serving as President of the Phi Rho Sigma medical fraternity chapter there. Alan's better half, Simone, is a native of Brussels.

Walter K. Fries and Joan are situated in Stratford, Conn., where he is teaching math at Shelton High.

Barry Gluck added C.P.A. to his name by passing all parts of the exams last May. He's a staff accountant for the national accounting firm of Haskins and Sells. His home address: 3911 Bruce St., Apt. 15, Alexandria, Va.

Robert N. MacArthur received his M.B.A. at Babson Institute in June and then joined the National Shawmut Bank of Boston as a security analyst.

Leonard H. Sills is with Sumner Schein, Boston, as an apprentice architect.

John J. Roe, 3rd, is associated with the law firm of Pelletreau & Pelletreau in Patchogue, L. I. He bumped into Ralph Hood at the Penn game.

Alfred R. Kaplan is media supervisor on the Colgate-Palmolive account with the D'Arcy Advertising Co. He's living the life in Greenwich Village.

Ronald E. Baker is with the Linde Division of Union Carbide as a Technical Sales Representative out of Chicago.

Your Secretary ran into Paul Lange in San Francisco recently. At the moment, he was anxiously awaiting results from the California bar exams. After getting out of the Army and while studying for the exams, he worked for a local department store as an assistant buyer of ladies sportswear.

Jerry Bitting is working for Universal Match in St. Louis and, on the side, completing his law education at George Washington University.

Dick Godfrey is in the Trust Department at the Rhode Island Hospital Trust Co. He's living on the East Side—Benefit and Power Streets—and claims that he has a two-bedroom house with a 10-car garage. Actually, it was the carriage house for the old Brown mansion.

Max Volterra is associated with the law firm of Widett & Kruger, 80 Federal St., Boston. In June he was graduated from the George Washington University Law School, where he was Associate Editor of the *Law Review*. During the summer he passed both the Massachusetts and D. C. bars.

Joseph DuPont, Jr., has been promoted to the rank of Captain in the Air Force. He is an instructor pilot with the 357th Pilot Training Squadron at Tinker AFB, Okla.

My wife Judy and I live high on a hill in San Francisco overlooking a portion of the city, the Bay, and the Golden Gate Bridge. Life has been fun and full in this city. I am working for a small, fast-growing insurance company, where I am in charge of the accounting and data proc-

essing operations. The company has recently installed a small computer which keeps me quite busy developing new systems. We miss the seasonal changes here, but the Sierras substitute and aren't too far away. I still have my house in Aspen, Colo., that I'm renting by the week or month. This provides a good excuse to go there a couple of times a year!

MARTIN H. IMM, JR.

1958

Five fast years have passed for the Class, and it's definitely time to start thinking in terms of the Fifth Reunion. Along these lines, a committee has been named with Dick Carolan as Chairman. Working with him are Eric Brown, Barry Phelps, Marty Moran, Hugo Mainelli, Warren Healy, Dave Wilson, and our President, Barr Clayson. An organizational meeting is planned for Jan. 15, 6:30 p.m., at the Sharpe Refectory. All members of the Class in the general Providence area will be welcome at this get-together. As soon as some definite plans are in the works, a newsletter will be mailed to all classmates. At the same time, we will also be asking for information concerning what has happened to you during those last five years.

Charles H. Turner has been named a lawyer in the Criminal Division of the U. S. Attorney's Office in Chicago. He had been employed with Turner, Hunt, and Woolley, Chicago law firm.

David Finkelstein has left the East-West Center in Honolulu for a field study trip to Asia. He has completed the first half of a two-year scholarship program sponsored by the East-West Center. He has studied Chinese language and culture at the University of Hawaii and now will do research in Taiwan and Japan.

1959

John A. Cederstrom has joined the staff of Pine Tree Council, Boy Scouts of America, in Portland, Me. When he left the Army, he was accepted into the professional service of the Scout movement and graduated from the National Training School on Nov. 15. He is a District Scout Executive for the Greater Portland Area and is living at 103 Highland St.

John D. Bagnall has been elected an Assistant Investment Officer at the Rhode Island Hospital Trust Co. He joined the bank in 1959 and the following year was made an assistant in security trader.

Charles F. Waterman has been awarded the Christian A. Herter Fellowship for study toward the Master of Arts degree at Johns Hopkins School of Advanced International Studies. The award is given annually to the second-year student with the highest grade average during his first year of study at the school.

Andrew H. Davis, Jr., a June graduate of the University of Virginia Law School, was admitted to the Massachusetts Bar in November.

Harold J. Pearce, Jr., has been promoted to the position of Mathematical Assistant with Massachusetts Mutual Life Insurance Co., Springfield.

John J. Vallone, Jr., was admitted to the Rhode Island Bar in November.

1960

Thomas Clingen has joined the Wall St. office of Francis I. duPont & Co., nationwide investment firm, as a registered representative. He was graduated Dec. 5 from a top-ranking six-month training course given in New York City. Tom had been an investment advisor in the Trust Department of Chase Manhattan Bank there.

David H. Lange has been graduated from Officer Training School at Lackland AFB, Tex., and has been commissioned a 2nd Lt. in the USAF.

Hugh Carmichael and his bride (June 9) spent the summer in Beaver, Alaska, serving the Church in the Indian village on the Yukon, three miles south of the Arctic Circle. Their assignment was merely to live like Christians in the village. "I'm sure we learned more from them than they from us," Hugh reports. "They have no deadlines for anything. They depend on what God provides for most of their substance and they therefore have a great appreciation for all of nature and the generosity of a loving God." Hugh is a student at the Episcopal Theological School in Cambridge, Mass.

Dan Wayne, who had been in the Air Force since 1958, serving in the Azores, North Africa, Europe, and Japan, is now on Campus at Brown.

Frank Yurasko is back for his second year at the Yale Law School. Last summer he served as a law clerk in New Jersey.

In the Albany area are Stuart Doling, in his third year at the Albany Law School, and Douglas Rainforth, in his Sophomore year at the Albany Medical College of Union University.

Frank Spellman is working in the Controller's Department for IBM after having received his Master's in managerial accounting from the Columbia Graduate School of Business.

Don Walsh is with the Internal Revenue Service of Lafayette, Ind.

Ted Anthonisen parted with the military in September and immediately joined the Davison Paxon Co., Atlanta, as an executive trainee.

Wilson Kinnach returned to the University of Pennsylvania to continue work on his Ph.D. in English. He had been working as a reporter for the *Burlington County Times* in New Jersey.

Peter Kindler is at the Wharton Graduate School of Business working on his M.B.A., and last summer he was employed by the Chemical Bank New York Trust Co.

1961

Albert L. Frechette returns to the Georgetown University Law Center this month to continue his studies in its evening division. He is an aide to Congressman Fernand J. St. Germain of Rhode Island and took a semester off from his law studies to assist in Representative St. Germain's campaign for re-election. Home in Rhode Island for a month, Frechette got to know "every inch and curve of the highway up and down the State." But in December he was back in Washington

DAVID T. FRANK '62 has been chosen a Ford Foundation interne to study theater management and is assigned to the Mummers Theater of Oklahoma City. He was one of 12 chosen from among 161 candidates. The 13-year-old Mummers Theater was recently awarded a \$1,250,000 grant from the Foundation to help underwrite its further development, including transition from non-professional to professional company.

again preparing for the work connected with the opening of the 88th Congress.

Donald T. Bliss of North Attleboro was elected to the Massachusetts House of Representatives from the first Bristol County District by some 3,947 votes. The two-year term pays \$6,300 annually. At 25, Don is the youngest person ever elected to the House from his county and the second youngest Republican ever elected to the Massachusetts House. He is filling the position held for more than 20 years by his father, Carlton H. Bliss '24, who died last spring.

November was a busy month for Don. He was elected to the Williston Academy Alumni Council, joined the Elks, was appointed a notary public by Governor Volpe, and became a member of the North Attleboro Town Committee. He also is a co-founder of the new North Attleboro Junior Chamber of Commerce. Despite his busy autumn, he had time to observe the Brown Varsity, JV, and Cub football teams in action, and he thinks that '63 may be a real good year on the Hill.

Jonathan Kapstein is working for the *Houston Chronicle*, assigned to the foreign news desk. He completed his graduate work at Columbia in June.

1962

Ian Ball is with the Peace Corps in Venezuela, teaching English in school. His address: Apartado 3, Guiria, Estado Sucre.

John D. Holbrook has returned from Guatemala City, where he had been teaching in the American School, and is working for Procter & Gamble in Cincinnati. OCS may be in the picture within a few months. He tells of an encounter with another Brown man who had "nothing good to say about Brown," but whose reason

for such an attitude was based on the comment, "Look at the football team." John remarks: "My disgust was lightly veiled for such tripe."

Richard D. Allen expected to begin four years of active duty with the Air Force in November, specializing in psychology. Upon completing his tour of duty, he plans to enter graduate school.

John C. Dugall, a June graduate from the University of California at Berkeley, has enrolled as a Freshman at Northwestern Medical School.

S. Stephen Rosenfeld plans to enter the Harvard Law School in September. He has been doing some substitute teaching in his home town of Milford, Mass., this winter.

In the Mail

The New Legacy

SIR: I can see it now, circa 1986. . . . Father, with head high and hand-clasp firm: "Goodbye and good luck, Benchly. Always remember, your father was a Caswell-Hegeman. Think twice before going Slater-Hope."

ARNOLD TULP '33
Red Bank, N. J.

For a Brainwashed Son

TO WHOM it may concern, I hope: My husband is a Brown man who received his advanced degrees from Yale; therefore we receive the annual brochure and order form from the Yale Co-op. It seemed opportune to order a Yale Bulldog sweatshirt for our eight-year-old son. However, the boy greeted this proposal with great disdain.

It seems that his father has brainwashed him to the point where a Yale sweatshirt is out of the question. Now I also receive literature from my own alma mater and suggested that he might like a sweat shirt from Reed. I received a puzzled look, together with the question, "Reed? Isn't that where they found Moses?"

There seems little else for me to do but appeal to Providence. Would you please arrange for one Size 12 BROWN BEAR sweatshirt to be sent COD to Kent Cahill, c/o Hugh E. Cahill, A.B. Brown '52, m.sc. and ph.d., Yale. Thank you very much.

RUTH FOUTS CAHILL, reed '50
San Jose, Calif.

Two of the Best

SIR: As one who worked with them through the years, my memory of Judge Benjamin W. Grim '99 and William H. Hull '01 as Secretaries of their respective Classes is a happy one. Both were Brown men in the best tradition; as Class Secretaries they were always active, reliable, and responsive. Indeed, they found pleasure in their work. A short time before Judge Grim died, I met him down town, had dinner with him, and spent an hour

and a half talking of Brown, of Class lists, and the gentle art of keeping classmates interested in reunions, in changes of address, and in writing about themselves and their doings. It was an evening to remember.

A. H. GURNEY '07
Providence

Singing from a Float

SIR: Did you happen to be watching TV Thanksgiving morning when the Macy parade was on? If not I would like to tell you about one of the features. It was the University of Pennsylvania Glee Club. The club was on one of the floats. The float stopped when it got to the place where the TV camera was and the club sang several songs.

The first song, as you might expect, was a Pennsylvania song. Then the club sang *Far Above Cayuga's Waters*. Next followed three songs whose names I did not catch but which had to do, respectively, with the Blue and White of Columbia, the Dartmouth backs tearing by, and the Orange and Black of Old Nassau. The next two numbers were *Bulldog, Bulldog, Bow!* *Wow! Wow!* and *Ten Thousand Men of Harvard*. For its finale the club sang another Pennsylvania song.

I thought you would be interested in hearing about the program.

G. S. '17

(Not much.—Ed.)

A Gus Russ Recollection

SIR: Reading about Dartmouth's undefeated football team this fall brought to mind an incident that happened 58 years ago. Going into the last game with Brown in 1904, Dartmouth also had an undefeated team. In fact, their club hadn't allowed its goal line to be crossed. The only points against the Green came on two field goals, one each by Holy Cross and Amherst. Circumstances made it possible for me to be the villain who spoiled at least part of the record.

Early in the second period we were forced to kick. I was down under the ball in a jiffy, waiting for the safety man to catch the punt. Well, the ball slid through his arms, hit the ground, and bounced right up into my hands. I was under full steam and kept on going in a clear field to score the only touchdown made against the Indians all that season.

The back who muffed the catch was so angry he took out after me and while I was lying on the ground in the end zone he deliberately kicked me in the ribs, breaking one of them. I played the last three periods of the game with a broken rib, and the fact that we were edged out by Dartmouth, 12-5, didn't make the rib feel any better.

GUS RUSS '06
Des Moines

(Gus Russ was captain of the 1905 Brown football team and still holds the all-time college records for most touchdowns one game (5), most points one game (30), and most points one season (90).—Ed.)

Bronx High School (Science)

SIR: This year The Bronx High School of Science in New York is trying to reach its alumni so that they may participate in celebrations commemorating the 24th year of the founding of the School. Many of our alumni are also graduates of your institution. You can help us reach them if you run the following announcement:

"Alumni of The Bronx High School of Science plan a 25th year Jubilee Celebration at the Statler-Hilton Hotel in New York on May 25. Alumni interested in subscribing to the dinner dance or to a Jubilee Scholarship Fund for needy pupils, please write to the Alumni Association, 75 West 205th St., New York 68, N. Y."

LOUIS HEINER
Alumni Advisor

They Represented Brown

ALUMNI have carried Brown University's greetings to sister institutions on a number of recent occasions when academic festivals called for such representation. In addition to members of the administrative and teaching staff, the following men have thus served Brown:

Dr. T. Harper Goodspeed '09 at the installation of Dr. Vernon I. Cheadle as President of the University of California, Santa Barbara, on Sept. 21. Dr. Goodspeed is Professor Emeritus at the University of California, Berkeley.

Dr. F. H. Guild '13 at the inauguration of Dr. Harold E. Sponberg as President of Washburn University on Oct. 7. Dr. Guild is Director of the Research Department for the Kansas Legislature.

Dr. John T. Winterich '12 at the inauguration of Dr. Robert A. Cook as President of The King's College on Oct. 6. Dr. Winterich, bibliophile and author, is an Editor of the *Saturday Review*.

Dr. Stanley Wawzonek '36 at the inauguration of Richard E. Whalen, Jr., as President of Black Hawk College on Oct. 7. Dr. Wawzonek is Professor of Organic Chemistry at the University of Iowa.

Gen. William C. Chase '16 at the inauguration of Kenneth Sanborn Pitzer as President of William Marsh Rice University on Oct. 10. General Chase is Professor of Political Science at the University of Houston.

Chapin S. Newhard '22 at the inauguration of Thomas Hopkinson Eliot as Chancellor of Washington University. Newhard is a St. Louis investment banker and a former Brown Trustee.

Alfred Bloomingdale '39 at the 75th anniversary of Pomona College on Oct. 16. The President of the Diner's Club is a Brown Trustee.

Dr. R. Bruce Lindsay '20, Dean of the Graduate School, at the inauguration of Homer D. Babbidge, Jr., as President of the University of Connecticut on Oct. 20.

George H. Carr '20 at the installation of John Barfoot Macdonald as Chancellor of the University of British Columbia on Oct. 25. Carr is President of Balfour Guthrie (Canada), Ltd., in Vancouver.

Provost Zenas Bliss '18 and Prof. Paul Maeder at the inauguration of Harry Purcell Storke as President of Worcester Polytechnic Institute on Oct. 26.

Albert F. Hunt, Jr., '27 at the inauguration of Adrian Rondileau as President of

The State College at Bridgewater, Mass., on Nov. 2. Hunt, son of Dr. Albert F. Hunt '99, is Superintendent of Schools in Bridgewater.

Dr. Harold R. Grady, Ph.D. '49, at the inauguration of Glenn L. McConagha as President of Muskingum College on Nov. 2. Dr. Grady, the former head of the Chemistry Department at Muskingum, is with the Vanadium Corporation of America in Cambridge, O.

John M. Records '40 at the inauguration of H. Guy Moore as President of William Jewell College on Nov. 8. Records is a Kansas City attorney.

John D. Powell '37 at the inauguration of Robert A. L. Mortvedt as President of Pacific Lutheran University on Nov. 8. Powell is Vice-President of Raleigh, Mann & Powell, Inc., in Tacoma.

Dr. Harold E. Conrad '27, Dean of the College, High Point College, at the inauguration of Kenneth Raynor Williams as President of Winston-Salem Teachers College on Nov. 11.

Dr. Leonard P. Sayles '23 at the inauguration of John Henry Fischer as President of Teachers College, Columbia University, on Nov. 13. Professor Sayles is Chairman of the Biology Department at C.C.N.Y.

Dr. Charles J. Speel '39 at the inauguration of Clarence Woodrow Sorensen as President of Augustana College on Nov. 17. Dr. Speel is head of the Department of Bible and Religion at Monmouth College.

William A. Dyer, Jr., '24 at the inauguration of Elvis J. Stahr, Jr., as President of Indiana University. Dyer, a former Brown Trustee, is General Manager of Indianapolis Newspapers, Inc.

Hardy L. Payor '50 will represent the University at the inauguration of William Howard Kadel as President of Florida Presbyterian College on Jan. 18. Payor, a partner in Fowler & Payor, Inc., St. Petersburg, is President of the West Coast Brown Club of Florida.

Lloyd W. Cornell '44, Assistant Dean of the College, at the inauguration of Dr. Vernon Alden '45 as President of Ohio University on May 11.

Harold S. Shefelman '20, at the installation of Phyllis G. Ross as Chancellor of the University of British Columbia on May 24. Shefelman, a Seattle attorney, is President of the Board of Regents at the University of Washington.

For 1962: A Special Report

SIX MONTHS after their graduation from Brown, here is what some of the members of the Class of 1962 are doing. The listing, by being condensed, covers a lot of ground. Its publication allows us to remind the most recent graduates (and others, too) that the Alumni Office appreciates prompt word of any change in job, address, or family status. Address: Box 1859, Brown University, Providence 12, R. I.

Kenneth B. Middleton, 1962's Class Secretary, requests material for the Class Notes to be published in each issue of this magazine under the 1962 heading in *Brunonians Far and Near*. His address appears on the back cover of this issue.

THE BEAR was Sonto, according to the flyer of the New York Brown Club for its Yule party.

The Brown Clubs Report

275 at Brown-Pembroke Night

THE SOUTH SHORE Brown Club entertained 75 Sub-Freshmen and their parents at a Brown-Pembroke Night in Hingham High School on Sunday, Nov. 25. The speakers were Mrs. Lois Bigelow and Eric Brown, who did an excellent job of portraying what Brown and Pembroke represent today and what is in store for these centers of learning in the future. Colby Cameron, Co-Captain of the hockey team, also spoke briefly, giving the high school youngsters an idea of what college life is like today. Also in attendance from the University were hockey coach Jim Fullerton, assistant hockey coach Dick Michaud, and Alumni Secretary Paul Mackesey. Altogether about 275 persons were present.

Members of the Committee included Mr. and Mrs. Howard D. Williams '17 (with Mrs. Williams serving as Chairman of the table decorations), William Ripley, Jr., '26, Chairman of the Program Committee; Preston Barry '49, Chairman of the Building Committee; Mr. and Mrs. F. Wil-

liam Lawton '44, Mr. and Mrs. Henry G. Phelps '39, Mr. and Mrs. Donald M. Emery '36, Mr. and Mrs. Raymond D. Nelson '31, Mr. and Mrs. Robert O'Day '50, Mr. and Mrs. Andrew A. Mantineo '53, Mr. and Mrs. Albert F. Hunt '26, Mr. and Mrs. John A. Kidney '41, Russ Halliday '26, Paul Jarvinen '62, Dave Nelson '64, Elizabeth Nelson '62P, and Mrs. Herbert Wotiz.

Engineers Jubilee Dinner

THE BROWN ENGINEERING Association will continue its 50th anniversary celebration with a Golden Jubilee Dinner in New York on Friday evening, Feb. 15. Wives and other guests will be invited to the affair, which will be held in the Butler Room of the New York Brown Club, 4 West 43rd St.

The program's feature will be a new film on the space age, whose special showing has been arranged by the BEA President, Stephen A. McClellan '23. Although no set speeches are planned, the diners will

hear from a representative of the Division of Engineering at Brown, and a report will be submitted by a committee on the future of the Association. Zenas W. Bliss '49 heads up this team of BEA officers and Directors, and he will tell of plans for expanded scope and activities of this professional group of Brown alumni.

Vitality on West 43rd St.

AN INFUSION of new blood in the nine Standing Committees of the N. Y. Brown Club has provided the membership with a program of events unmatched in recent years. A total of 68 members have been appointed to the various committees by Weston M. Stuart '27, President, to promote the athletic and social objectives of the organization.

Under the direction of Arthur R. Thebado '51, chairman of the Activities Committee, a social calendar embracing football smokers and broadcasts, faculty talks, a dance, and the traditional Christmas Party has taxed the facilities on West 43rd Street. One of the events, the Fall Dance on the eve of the Princeton game, proved so popular that a repetition in the form of

AS WASHINGTON WELCOMED the new Alumni Secretary, Paul F. Mackesey '32. (The account of the meeting gives the names.)

a formal ball is being considered for the spring.

The more athletic members of the Club are again competing on the Brown team in the tournament conducted by the Metropolitan Squash Racquets Association. Ray V. Manfredi '40 heads up the group using the four squash courts at the Clubhouse.

In the College Clubs Bridge League of eight New York clubs Charles L. Busch '48 and seven other devotees of duplicate bridge represent the Club in bi-weekly matches. A victory over a strong Columbia University Club octette featured early season play.

Heralding a series of luncheons at which members of the faculty will be the speakers, John V. Elmendorf, Vice-President of the University, spoke at a November luncheon. In line with Dr. Elmendorf's report that the University is vitally interested in an expansion of alumni participation in the Sub-Freshman field, the Club has expanded its Secondary School Committee to 18 members. This group, under the direction of John F. Wilson '44, is actively engaged in abetting the Admission Office at Brown by interviewing applicants for next year's Freshman Class.

A good start toward the 1,000-member goal of the club's Admissions-Membership Committee was made during the fall months when 49 new members were admitted. Robert G. Berry '44 assisted by William H. Lyon, Jr. '29 and Joel Davis '56 heads up the committee in its concerted campaign to establish the Brown Club on an equal numerical basis with other Ivy League college clubs in New York. Inquiries regarding membership are being acknowledged by Christine M. Dunlap, Executive Secretary, with an eight-page descriptive brochure. The overnight accommodations at the Clubhouse have proved particularly popular among members in the non-resident classification.

The Club's sprightly newsletter lists the following among new members: Colgate Hoyt '05, W. W. Hall '21, J. W. Connolly '25, J. W. Wadsworth '30, W. R. Gill '31, M. L. Taylor '33, P. T. Gidley '34, F. T.

Leighty '37, C. S. White '37, E. C. Swift '42, A. P. Conaty '43, J. G. MacPherson, II, '44, W. J. Johnston '48, D. B. Miller '48, P. Kirschenbaum '49, A. J. Combias '50, E. J. Lownes, III, '50, H. Stern '53, R. J. K. Cromwell '54, A. W. Loos '54, J. Soloway '56, W. A. Hayes '57, M. M. Klein '57, M. C. Maloney '57, R. L. Mansfield '57, J. H. Hickman, III, '58, A. M. Keller '58, J. M. McMorris '59, D. Nadell.

From 1961 are: S. Abramowitz, S. L. Brown, M. M. Finefrock, T. N. Gardner, J. B. Juhasz, B. A. Roe. From 1962: N. J. Angell, C. M. Coe, R. F. Ebin, W. E. Friedel, P. A. Hansen, E. N. Lippincott, J. F. Morse, III, M. T. Reid, R. P. Rhinehart, N. J. Rohrbach, Jr., and W. A. Victor.

Washington's Winter Plans

ALUMNI in the Washington, D. C., area have been invited to a Brown Club luncheon in the Hughes Room at the Federal Bar Building on Monday, Jan. 28, at 12 noon. The annual Brown-Pembroke social was scheduled for Dec. 29 in the Cabaret Room of the Willard Hotel, with former Ambassador John J. Muccio '29 expected as the guest of honor. The proposed visit of the Glee Club is put off until our 200th year, 1964. The annual banquet will be held at a date this spring that is convenient for President Keeney. Further word on this next month.

The Brown Club of Washington welcomed Paul F. Mackesey, '32, new Alumni Secretary, to the Nation's Capital for a November dinner and smoker in Park Arlington Motel. The photo on this page shows the following, left to right: Dr. Allen S. Nanes, '41, Chairman of Secondary School Committee; Paul Mackesey; Edward R. Place, '24, Club President; Andrew B. Ferrari, '46; Chief Judge of the U.S. Tax Court Norman O. Tietjens, '25; Henry A. Niven, Jr., '50, Club Vice President; Earle V. Johnson, '24, Club Secretary; C. H. Watts, '47, Co-Chairman, Secondary School Committee.

Standing: George Hurley, Jr., '41; A. Evans Gwynne, '21; George Viault, '26, Club Treasurer; Donald M. Clayton,

'31; Paul W. McGann, '38; Harold B. Master, '27; Allen F. Rust, '46; Charles H. Whitaker, '33; Aaron E. Gottshall, '15; William F. Littlejohn, Jr., '50; William F. Littlejohn, '15; Daniel B. Krinsley, '49; Stuart H. Fitzpatrick, '52; Lloyd W. Dennis '31. Missing from photo were: Alumni Trustee Thomas G. Corcoran, '22, and Henry J. Hoye, '42.

Wet Saturday in Princeton

SOMETHING NEW in the line of Club activities, a Swimming Party, was held by the Brown Club of Maryland on Saturday, Nov. 3. The location was Palmer Stadium, and the General Chairman was a chap named Jupiter Pluvius.

Actually, the original plans called for a large delegation of Club members and their ladies to travel from Baltimore to Princeton, N. J., on a chartered bus. Then the rains came. However, a small group of hardy souls refused to be daunted. Chuck Isherwood '44, Bob Borg '50, Larry Kaufman '52, and their lovely wives, and Dr. John Tansey '43 and his son, John Jr., met at Penn Station on Saturday morning and headed toward Tigertown. Three hours and two shuttle trains later, the group arrived, just in time for the soggy kickoff. The ladies retired to the Nassau Inn between the halves, but the men stayed to enjoy what was felt to be a good performance by Coach McLaughry's Bruins. The team showed promise for the future. The weather we're not so sure about!

A New Club Goes to Work

THIRTY-FIVE SCHOOLBOYS, 25 parents and three guidance directors from the area attended the Sub-Freshmen Night sponsored by New York's Southern Tier Brown Club in November. Admissions Officer Eric Brown showed the film, "Succession of Men," and later answered questions from the audience. Assisting in the program were Stephen F. Honan '54, James Gray '51, Edmund A. Barber, Jr., '38, Edson M. Chick '45, Dr. Aldo S. Bernardo '42, and Irving M. Disraelly '30. The Club's headquarters are in Binghamton.

I. M. DISRAELLY '30

Program for the Twin Cities

CRANE J. BODINE '52, Executive Vice-President of Bodine's Inc., Minneapolis, has been elected President of the Twin Cities Brown Club. Serving with him are Tom Caswell '60 as Vice-President and Bill Moberger '56 as Secretary-Treasurer. In addition, Ken Allen '53 will handle publicity while Caswell, a former member of the Brown Admissions staff, will serve as Admissions Chairman.

The Club's objective is to increase interest in and appreciation of Brown throughout the upper Midwest. There are 98 alumni living in Minnesota, with most of them in the Twin Cities area. Working closely with the Club, the University flew two representatives in for a pair of late-fall meetings. Admissions Officer Eric Brown worked with Caswell's committee in a preliminary screening of high school candidates during a three-day meeting. Then, John G. Peterson '17, the founder of the Club, was host at a gathering at the Minneapolis Club to honor our visiting Alumni Secretary, Paul Mackesey. Movies of the Brown-Penn game were shown.

In the immediate future, intensive work with secondary schools will be the primary activity of the Club. In an effort to keep all the members up to date on the latest

activities, monthly luncheons will be held at the Hotel Normandy. All Brown men in the area are most welcome; for reservations they should contact Secretary Moberger at General Mills, Inc., Minneapolis.

They Drew from Two Counties

A FOOTBALL MUSTER with standing room only (a joint project of the Fairfield County and Westchester County Clubs) was held at the Riverside Yacht Club in Riverside on Nov. 25. Attendance ran more than 100, most of whom were players or coaches from high schools in the area.

Coach John McLaughry did an excellent job in presenting the Brown story, and he also handled the narration of a film covering highlights of the 1962 season.

James Gordon and Cortland P. Briggs were Co-Chairmen for Westchester, while Bob Fearon and Carl Hammond headed the Fairfield committee. The meeting was topped off by a buffet supper. Along this line, may we make a suggestion to Clubs planning similar gatherings: Order food by the carload if you aim to feed 60 or 70 high school football players. Kill at least a dozen steer for a crowd this size.

NORM WAKEMAN '36

Back Cover Overflow

EXPANDING alumni activity is reflected in the crowded situation in the directory of Brown Club Secretaries listed on the back cover of this issue. Many Clubs, some of the less active, have had to be omitted from that other roster but are noted here.

We list as a supplement the following Brown Clubs of record in the following areas: *Akron*—Robert C. Graham '40, 1432 Sand Run Rd., Akron 13. *Bridgeport*—Ralph J. Lockwood '25, 1115 Main St. *Canton*—Robert M. Mann '52, 2815 St. Elmo N.E., Canton 4, O. *Dallas*—Robert C. Lunn '54, 3841 Mockingbird, Dallas, Tex. *Eastern Connecticut*—Stephen S. Armstrong '36, Pres., 120 Broadway, Norwich. *Houston*—Leon M. Payne '36, 2200 Gulf Bldg., Houston 2. *Kansas City*—L. F. P. Curry '18, 1105 West Rubey, Independence, Mo. *Louisiana*—Dr. Dean H. Echols '27, 1428 First St., New Orleans 13. *Memphis*—A. Dulaney Tipton '58, 5637 Barfield Rd. *Mid-Hudson*—H. Wilson Guernsey, Jr., '43, Upton Lake Rd., Clinton Corners, N. Y. *Northeast Pennsylvania*—Henry W. Peterson '21, Pres., 42 Norton Ave., Dallas, Pa. *Northwest*—Paul B. Fides '28, Pres., 3101 Elliott Ave., Seattle 1. *Oklahoma*—Edwin J. Schermerhorn '34, 2824 S. Columbia Pl., Tulsa 14. *Oregon*—Dr. Miner T. Patton '32, 6810 S.E. 31st Ave., Portland 2. *Youngstown*—Richard B. Wilson '12, 304 Dollar Bank Bldg.

JOINING FORCES for a "Football Muster," the Brown Clubs of Fairfield and Westchester Counties welcomed Coach John McLaughry and 100 other enthusiasts. At left, William J. Maguire, Jr., '51, Fairfield President; at right, Ray S. Fidler '50, Westchester President.

THE CHICAGO BROWN CLUB devoted part of its November meeting to a compliment to Prof. Forrest McDonald, in town in connection with the publication of his new book. He also had an autographed copy for the speaker of the day, Darby Johns, new Trade Commissioner for Australia to the Windy City. With them at the Tavern Club was Club President Alexander Maley '27.

Public Lectures Offered

PROF. WALTER FELDMAN of the Brown Art Department will be the featured speaker when the Brown Club of Fairfield County offers the first of its "Evenings with the Faculty" at the Silvermine Guild in New Canaan, Conn. on Sunday evening, Jan. 13 at 7:30. This is the first in a series of such lectures, open to the public, which the alumni in Fairfield County are sponsoring. All alumni, their wives, and friends are particularly invited. Those who attended the Alumni College last summer will recall what a bit Professor Feldman made with his talk on a painting sabbatical in Mexico.

The Club's second annual "Introduction to Brown" was held at the Darien High School on Sunday, Dec. 9. The afternoon meeting was lively and most successful with a crowd of some sixty prospective students—both boys and girls—many with their parents. This was more than twice as big a group as attended last year.

Guests from the University included Eric Brown from the Admissions Office, Dr. Paul Taylor of the English Department (who revealed that he had lived in Wilton, gone to school in Westport, and dated a girl in Darien), and Cliff Stevenson, coach of soccer and lacrosse. The highlight of the meeting was the showing of the color film of Brown, "A Succession of Men." As one student put it, "How can

you be undecided about what college is first choice after a film like that!"

Two weeks earlier Fairfield alumni teamed together with Westchester alumni for a Football Muster. The stag event was held at the Riverside Yacht Club in Riverside, Connecticut and attracted an overflow crowd of 106 alumni, local high school stars and their coaches. Featured speaker was Coach John McLaughry who spoke about the advantages of Brown as an educational institution and as a place to play football. He then showed films of the Columbia, Yale, and Cornell football games and talked about prospects in the future. A buffet followed, and (from all reports) the boys were most impressed.

BOB FEARON '51

Arizona Had a Visitor

THE PHOENIX Brown Club held one of its most successful meetings late last fall, with Admission Officer Dave Zucconi flying in to represent the University. Tucked under his arm was the fine film, "Succession of Men." The 15 Sub-Freshmen, parents, and guidance directors thoroughly enjoyed the movie and Zucconi's comments. Brown has not been as well represented in this area as some of its Ivy League brethren, but those at this meeting left with a fine impression of the College on the Hill.

BILL MCILLIAN '49

Bureau of Vital Statistics

MARRIAGES

1925—John H. Kazanjian, Jr., and Miss Alberta A. Copeland, daughter of Mr. and Mrs. Albert L. Copeland of Pawtucket, May 3. The bride's father is '01.

1944—George Rich, III, and Mrs. Lourdes Aspuro Musso, Oct. 4.

1946—Sheldon D. Heller and Miss Janice S. Finn, daughter of Mr. and Mrs. Manuel Finn of Malden, Mass., Dec. 2. Dr. Edward Spindell '49 and Henry Epstein '46 ushered.

1951—Roy L. Forman and Miss Joanne R. Short, daughter of Mr. and Mrs. David Short of Newton Centre, Mass., Nov. 18. At home: Vanigan Ct., Medway St., Providence.

1952—David B. Allan and Miss Barbara C. Dietmann, daughter of Mr. and Mrs. Rudolf W. Dietmann of West Berlin, Germany, Oct. 6. At home: 51 Gloucester St., Boston.

1955—Per D. Fagereng and Miss Susan Tucker, daughter of Mr. and Mrs. Finest F. Tucker of Lake Oswego, Ore., Aug. 15. At home: 1314 Vallejo St., San Francisco 9.

1955—Montigue Morris and Miss Elizabeth L. Buechner, daughter of Mrs. Thomas S. Buechner of Bronxville, N. Y., and the late Mr. Buechner, Nov. 17.

1956—Noel M. Field, Jr., and Miss Mary P. Campbell, daughter of the late Mr. and Mrs. Allan Campbell of Chicago, Nov. 10. The groom's father is '26; his grandfather was the late Harold C. Field '94, long Treasurer of the University.

1958—LT(j.g.) Robert R. Beaton and Miss Linda M. Fuqua, daughter of Mr. and Mrs. Ivan W. Fuqua of Providence, Nov. 10.

1959—Lt. Christopher Peet, USMC, and Miss Joan M. Shaughnessy, daughter of Mrs. John T. Shaughnessy of Brookline, Mass., Nov. 24.

1959—John C. Wright and Miss Judith R. Sutton, daughter of Mr. and Mrs. Raymond P. Sutton of Essex Fells, N. J., Sept. 29. LT(j.g.) Frederick M. Williamson, USNR, '59 was an usher.

1960—Berkeley W. Duck, III, and Miss Nancy S. Ruddell, daughter of Mr. and Mrs. Warren T. Ruddell of Indianapolis, Aug. 22. J. Michael Hittle '60 was best man. Frank W. Puffer '60 and Theodore R. Boehm '60 ushered. At home: 4 Chauncy Ter., Cambridge 38, Mass.

1960—Robert H. Willis and Miss Jane E. Halperin, daughter of Mr. and Mrs. William Halperin of Great Neck, N. Y., Sept. 2. Edward Sweet '60 was best man. Ushers included Joel Brest '60, Michael

Davis '61, Robert Klein '60, and Philip Tenenbaum '60. The bride is Pembroke '62.

1961—Ens. William J. Denneen, USN, and Miss Mary M. White, daughter of Mrs. James A. White of Wollaston, Mass., and the late Mr. White, Oct. 27.

1961—Albert L. Frechette, Jr., and Miss Lorraine Vezina, daughter of Mr. and Mrs. Ernest W. Vezina of Providence, Nov. 10. Pierce K. Healey '61 was an usher.

1961—Lt. Robert G. Jones, USMC, and Miss Helen P. Kelly, daughter of Mr. and Mrs. James Kelly of Ballina, Ireland, Nov. 10.

1961—Ens. Clarke E. Ryder, USN, and Miss Judith Macfarlane Fall, daughter of Mr. and Mrs. Joseph H. Fall, III, of Hubbard Woods, Ill., Oct. 13. Knowlton J. O'Reilly '61 was best man. The bride is Pembroke '61.

1961—Curtin Winsor, Jr., and Miss Ann Hanbury, daughter of Henry Hanbury of New York City and Mrs. Arturo Luduena of Buenos Aires and Washington, Nov. 18.

1962—Manuel Sousa and Miss Beverly A. Fragosa, daughter of Mr. and Mrs. Antone F. Fragosa of Fall River, Nov. 17. At home: 949 Locust St., Fall River.

BIRTHS

1939—To Mr. and Mrs. Arnold D. MacDonald of Hingham, Mass., their third child and second son, Alan Scattergood, Nov. 4.

1939—To Mr. and Mrs. David B. Wilmot of Buskirk, N. Y., twin boys, James V. and Robert N., July 16.

1943—To Mr. and Mrs. Albert E. Beachen, Jr., of Riverside, R. I., a daughter, Cindy Ellen, Nov. 6.

1943—To Dr. and Mrs. Enold H. Dahlquist, Jr., of Chepachet, R. I., a son, Andrew Enold, Oct. 20.

1945—To Mr. and Mrs. Charles W. Briggs, Jr., of Rumford, their fourth child and third son, Jonathan Tift, Nov. 16.

1947—Mr. and Mrs. Gordon L. Stuart of Dallas announce the adoption of a son, Scott, born Apr. 26.

1948—To Mr. and Mrs. Irwin Chase of Providence, a son, Michael Scott, Oct. 24.

1949—To Dr. and Mrs. Theodore H. Goldberg of Harrington Park, N. J., a son, Jonathan Ari, Oct. 29.

1949—To Mr. and Mrs. Matthew R. Holiday of Buenos Aires, Argentina, their third child and first son, Matthew Rutherford, Jr., Oct. 10.

1949—To Mr. and Mrs. George T. LaBonne, Jr., of Glastonbury, Conn., their third child and first son, Gregory Todd, Nov. 21.

1950—To Mr. and Mrs. Edgar D. Beacham of Chatham, N. J., their second child and first daughter, Jennifer Lynn, Aug. 23.

1950—To Mr. and Mrs. Peter G. Fradley of Barrington, R. I., their third child and second daughter, Amy Whaling, Oct. 7.

1950—To Mr. and Mrs. John V. McCulloch of Warwick, R. I., their fourth child and third daughter, Mary Louise, May 15.

1950—To Mr. and Mrs. William T. Tobelman of Greenville, R. I., their second child, a daughter, Margaret Jardine, July 8.

Paternal grandfather is Gustave H. Tobelman '17.

1950—To Mr. and Mrs. Edmund J. Winterbottom, Jr., of New Bedford, their fifth child and first son, Peter Clarke, Nov. 22.

1951—To Mr. and Mrs. Alan M. Stone of Anchorage, Ky., their first child, a daughter, Holly Lee, Oct. 17.

1952—To Mr. and Mrs. William J. Buttlings, Jr., of Elkins Park, Pa., their third child and first son, William Joseph, III, Nov. 5.

1953—To the Rev. and Mrs. Alden R. Burhoe of Somerset, Mass., their first child, a daughter, Pamela Elaine, Nov. 8. Paternal grandfather is the Rev. Paul E. Burhoe '26.

1953—To Dr. and Mrs. Charles E. Knox of New York City, their first child, a daughter, Suzanne Elizabeth, Nov. 16.

1954—To Dr. and Mrs. Gerald N. Burrow of Branford, Conn., their second child and first daughter, Elizabeth Huntington, Sept. 15.

1954—To Mr. and Mrs. Thomas T. Gately of Kensington, Conn., a son, Thomas Theodore, Jr., Nov. 25.

1954—To Mr. and Mrs. Stephen F. Honan of Binghamton, N. Y., their third child and second daughter, Carolyn Sue, Oct. 3. Paternal grandfather is Dr. Frank J. Honan '21.

1954—To Mr. and Mrs. William A. O'Brien of Birmingham, Mich., their first child, a daughter, Leslie Anne, Oct. 11.

1954—To Mr. and Mrs. David N. Orth of Nashville, Tenn., their third child and second daughter, Julie Thomas, Nov. 10. Mrs. Orth is the former Ann Stewart, Pembroke '55.

1954—To Mr. and Mrs. Alexander F. Rothenich of Cranston, a son, Kirk Philip, Oct. 21.

1955—To Mr. and Mrs. Stephen R. Ehrlich of Brooklyn, N. Y., a daughter, Lisa Anne, Nov. 12.

1955—To Mr. and Mrs. Vincent Jazwinski of Madison, N. J., a son, Mark Vincent, Nov. 19.

1955—To Mr. and Mrs. Everett A. Pearson of Warren, R. I., their first child, a son, Mark Everett, Nov. 20.

1955—To Mr. and Mrs. John A. Summerfield of Park Ridge, Ill., a son, Harold Andrew, Oct. 11. Paternal grandfather is Harold L. Summerfield '23, and uncle is Charles Summerfield '36.

1956—To Mr. and Mrs. Paul H. Christiansen of Rochester, N. Y., their first child, a daughter, Randi Ila, Sept. 4.

1956—To Mr. and Mrs. John E. Delhagen of Bethel Park, Pa., their third child and second daughter, Kathleen Ann, Nov. 16.

1956—To Mr. and Mrs. Lewis W. Peterson, Jr., of New York City, their second daughter, Juliana Kristine, Oct. 23. Elizabeth Mary was born Feb. 5, 1961.

1957—To Mr. and Mrs. Richard E. Andersen of Scarsdale, N. Y., their second child, a daughter, Nancy Elizabeth Yuille, Nov. 1.

1957—To Mr. and Mrs. Henry L. Thompson, Jr., of New York City, a daughter, Suzanne Elizabeth, Oct. 18.

1957—To Mr. and Mrs. Bruce D. Yeut-

ter of Upper Montclair, N. J., a daughter, Susanne Schuyler, Oct. 5.

1958—To Mr. and Mrs. Robert Blakeley of Mechanicville, N. Y., their third son, Peter Francis, Oct. 20. Mrs. Blakeley is the former Sylvia Thorley, Pembroke '58.

1958—To Mr. and Mrs. R. Alan Feldman of Flushing, N. Y., their first child, a daughter, Beth Lisa, Nov. 22. Mrs. Feldman is the former Linda J. Blackman, Pembroke '60.

1958—To Mr. and Mrs. David L. Nass of Springfield, Mass., their second child and second daughter, Carla Marie, Oct. 25.

Tributes from the Faculty:

Paul Norman Kistler; Charles Arthur Stuart

MEMORIAL MINUTES for two Brown Professors were read at the December meeting of the Faculty. Emeritus Prof. Paul Norman Kistler died Nov. 17; Prof. William R. Benford '27 prepared the statement for the Engineering Division, which was read by Prof. Joseph Gurland. Prof. J. Walter Wilson '18 presented the resolution for his classmate and fellow biologist, Prof. Charles Arthur Stuart. The minutes follow:

PAUL NORMAN KISTLER was a member of the Faculty from 1926 until his retirement in 1960, holding the rank of Professor of Mechanical Engineering from 1945.

Born July 20, 1894, in Pennsylvania, he received the degree of Sc.B. in Mechanical Engineering from Pennsylvania State College in 1920 and an Sc.M. degree in Mechanical Engineering from Lehigh University in 1924. Brown University awarded him an A.M. *ad eundem* degree in 1945. As an undergraduate, he was elected to Tau Beta Pi, and as a graduate to Sigma Xi. Before entering the teaching profession, he was associated with Bethlehem Steel Company and the Bell Telephone Company of Pennsylvania.

Throughout his career, he was active in University, civic, professional and scientific groups and organizations. This interest and activity continued after his retirement and to within a few months of his death. Among the organizations in which he held membership and in which he also held office were the Providence Engineering Society, the Society for the Promotion of Engineering Education, the American Society for Metals and the American Society of Mechanical Engineers. He was a past president of the Providence Section, American Society of Mechanical Engineers.

Early in his career he established a reputation for his professional and objective analysis of engineering problems. His advice and counsel were sought by both the layman and the professional. He was a pioneer in recognizing the hazards of air pollution to public health and welfare. His

Mrs. Nass is the former Judith Kelso, A.M. Brown '61.

1958—To Mr. and Mrs. Martin Wolman of Berkeley, Calif., their first child, a daughter, Koren Marcette, May 16. Mrs. Wolman is the former Jean F. Callahan, Pembroke '59.

1959—To Mr. and Mrs. Richard J. Ramsden of Stamford, Conn., their second child and first son, Christopher McLean, July 2.

1960—To Mr. and Mrs. Peter A. Dames of Temple, Tex., their first child, a daughter, Alicia Anne, Nov. 11.

proposals and recommendations, many of which have been adopted locally, have served as a model for communities throughout the country. Professor Kistler was admired and respected by the students. He was respected and honored by the profession.

CHARLES ARTHUR STUART was born in the town of Lyon Mountain in Northern New York on May 26, 1893. He received his elementary education in the public schools of Plattsburg and entered Brown as a freshman in 1914. During the first World War he served in the Brown University unit of the United States Ambulance Corps. After the War he returned to Brown, graduated in 1919 with his Class of 1918, received the Master of Science degree in 1921 and the Ph.D. degree in 1923. He was immediately appointed to the Faculty and remained an active member until his retirement as Professor Emeritus in June, 1960. In 1944 he became the Robert P. Brown Professor of Biology.

From 1925 on he gave lectures in Bacteriology and Immunology at the Rhode Island Hospital School of Nursing. He served for many years as a consulting bacteriologist to the Charles V. Chapin Hospital and the Veterans Administration Hospital in Providence. He also served the community as Chairman of the Rhode Island State Board of Basic Science Examiners, before which every candidate for a license to practice medicine in Rhode Island has to appear.

Dr. Stuart was a member of several learned and professional societies: the Public Health Association, of which he was a fellow; the Association of Immunologists; the Society of Experimental Biology and Medicine; the American Society of Bacteriologists, of which he was President in 1956; and the Society of the Sigma Xi.

He was an excellent teacher both of undergraduate and graduate students. His lectures were well prepared and delivered with an enthusiasm that never seemed to fail and he was tireless in the conduct of

his laboratory classes. A long line of students, scientists and nurses affectionately called him "Doc". The Brown Breakfast at the annual meetings of the American Society of Bacteriologists was always an enthusiastic, if not actually boisterous, affair with no other stimulant than coffee and Dr. Stuart at the head of the table.

In the Basement, by Choice

Outside of the laboratory his social activities were very limited. His wife, also a scientist, frequently served as his assistant, always helping in the keeping of his experimental records and in the preparation of his papers. Abetted by her, he spent most of his waking hours including nights, week-ends, holidays and vacations in his laboratory in the basement of Arnold.

As he progressed in stature in the University, the question was frequently raised why he was still relegated to the basement. It was his own choice, for two reasons. The first was a practical one. In the basement he was away from the main traffic of the crowded building and had plenty of space that no one seemed to covet. Furthermore, as he worked in the summer, he had the coolest place in the building.

The second reason, probably more important, was nostalgic. He had been inspired to become a bacteriologist by always seeing, through the window as he walked past, two graduate students, Bill Brown and Percy Meader. As an undergraduate he had come to know them and spent most of his leisure working with them. He inherited their place and equipment when they left; he spent the rest of his working life there.

From his undergraduate days Charles Stuart was devoted to his research. His most important contributions had to do with infectious mononucleosis and the enteric bacteria. His paper on the serological test used in the diagnosis of infectious mononucleosis is a classic, still cited a quarter of a century after its publication.

JESSE F. SMITH '96: His memorials are both indoors and out and in grateful hearts.

From the early 1940's his efforts were concentrated on the Enterobacteriaceae, the group of Bacteria that includes the organisms of typhoid, paratyphoid, and many more or less pathogenic relatives. They present a health problem nearly as important as the common cold. He became an authority on the physiology and immunological relationships of this group. With an extensive collection of cultures and antisera, he was frequently called upon for help from his colleagues, not only from the United States but also from abroad.

Professor Stuart was always glad to work with his colleagues at Brown if he could be of help in the solution of their problems. This resulted in many fine publications. He worked with Dr. A. M. Banta on the culture medium used in his extensive study of the water fleas, the Cladocera; with Dr. George V. Ridder on the culture of *Tetrahymena*, a protozoan that has been used in many important investi-

gations; and with Dr. Paul B. Sawin on the serological characteristics of the various strains of rabbits that he maintained for his studies on genetics and development.

Limited as his daily round appeared, Professor Stuart lived a full life as anyone closely associated with him realized. He had an extensive correspondence, enjoyed visiting with his colleagues and former students, and always looked forward to scientific meetings especially to the meetings of the Boston Bug Club which he attended regularly for many years.

Those of us who were closely associated with him will miss our visits with him and his enthusiastic and vigorous conversation about anything he happened to be interested in at the moment, most frequently some aspect of his research. His scientific colleagues everywhere will find it hard to replace him as a source of materials and also of mature wisdom.

In Memoriam

THE REV. JESSE FOWLER SMITH '96, in Suffield, Conn., Nov. 16. After attending the University of Chicago for two years, he was graduated from Hartford Theological Seminary in 1899 and did postgraduate work at Yale. A missionary in Burma for 14 years, he joined the Suffield Academy Faculty in 1917 and taught English and the Bible; he was Alumni recorder and Editor of the *Suffield Alumni Quarterly*. A room at the Academy was named for him when he retired in 1955. He was a life Deacon of the Second Baptist Church, and for several years was Superintendent of the Church School. He was also honorary Pastor of the First Baptist Church, Suffield. He was a member of the New England Botanical, Suffield Historical, and American Fern Societies, and honorary member of the Connecticut Botanical Society. His nature studies bore practical results, for he donated specimens to Springfield College, to the Harvard and Yale herbariums and more than 1000 Suffield botanical specimens to Suffield High School in 1958. As a memorial to his work, the townspeople dedicated the Jesse F. Smith Memorial Forest in 1959. Phi Delta Theta. Phi Beta Kappa. His daughter is Dorothy B. Smith, 419 No. Main St., Suffield.

WILLIAM ELLIS FARNHAM '99, Sc.B. M.I.T. '01, in Orange, N. J., Oct. 10. He was a retired traffic facilities engineer in the Department of Operations and Engineering of the American Telephone and Telegraph Co., which he joined in 1903. He was a member of the Brown Engineering Club of New York, and the first President of the Brown Engineering Society. He also was Class President. He was a member of the American Institute

of Electrical Engineers and the Telephone Pioneers of America. He was the co-author of an article in the January, 1930, number of the *Bell Telephone Quarterly*, entitled "Operating Features of the Straightforward Trunking Method." In 1929, he was appointed the representative of this country on telephone symbols of the International Electrotechnical Commission. Farnham was proud of a perfect record of attending Commencement for many years. Alpha Tau Omega. Phi Beta Kappa. His widow is Mary M. Farnham, 105 Park St., New Bedford.

BERNARD PERRY RAYMOND '04, in Worcester, Nov. 2. He had lived in Providence many years before moving to Worcester three years ago. He was a claims adjuster for United Transit Co. in Providence for 35 years and had earlier been employed for seven years with the Adams Express Co. Sigma Chi. His son is Rhodes Raymond, 2 King St., Apt. 4, Worcester.

CLINTON COOLIDGE LOW '08, in Concord, N. H., Apr. 21. He had been a teacher of manual training and drafting in Danvers, Mass., prior to his retirement. His widow is Blanche P. Low, Northwood Ridge, N. H.

RICHARD ALEXANDER COLMETZ '10 in Foxboro, Mass., Oct. 25. His activities as a civil engineer included a number of projects in the Caribbean and Central America for many years. During 17 years in the Civil Service he was employed by such Government agencies as the ICC, FPHA, and RFC. He was also resident engineer for the North Carolina State Highway Department from 1921 to 1929, following four years

as an instrument man in the U. S. Navy Department. He was a member of the Brown Engineering Association. His widow is the former Florence Thomae, Pembroke '19, 44 Oak St., RFD 2, Norton, Mass.

JOHN OLIVER BLANTON, JR., A.M. '13, in Louisville, Ky., Oct. 9. A graduate of the University of Kentucky, he was a retired accountant and tax consultant. At one time he had been President of the American Mutual Savings Bank in Louisville. His widow is Carolyn S. Blanton, 621 So. 8th St., Louisville.

HARRY CHAMBERLAIN BROWN '13, in Marblehead, Mass., Nov. 15. He retired as Chairman of the Division of Engineering at Lowell Technical Institute in 1957, after having been a member of its Faculty since 1919. He also had accomplished graduate work at the University of Maine, and M.I.T. During World War I he served with the Signal Corps of the U. S. Army. Previously he was Instructor in Physics at the University of Maine, and Instructor in Applied Science at Wentworth Institute. He also had been employed by the General Electric Co. in the electrical testing of motors and generators. He was the author of several technical papers and was a member of the American Association of University Professors and the American Association of Physics Teachers. Sigma Xi. Edith B. Brown, 34 Franklin St., Marblehead, is his widow.

ROBERT HENRY GIRVIN, JR., '23, in Boston, Nov. 24. He had been associated with Draper Corp., Holliston, Mass., for the past 10 years as Assistant Manager of advertising. For many years he had worked in granite architecture, and had designed the Holliston War Memorial. He was a member of the Hopedale Mutual Benefit Association. Sigma Chi. His widow is Zeta S. Girvin, 11 Pleasant St., Holliston.

HENRY JOSEPH HANLEY '23, M.D., Harvard Medical School '27, in Pawtucket, Nov. 12. He was former Senior surgeon at Pawtucket Memorial Hospital. In addition to staff service there, where he had been Chairman of the Disaster Relief Committee, he served at St. Joseph's, Our Lady of Fatima, Notre Dame, and Roger Williams hospitals. A Fellow of the American College of Surgeons, he was Past President of the Pawtucket Medical Association. President of the Pawtucket Memorial Hospital Internes Alumni Association, Council member of the Rhode Island Medical Society, and a member of the Providence Surgical Society. Phi Kappa. His brother is Dr. James L. Hanley '20GS, and his widow is Margaret E. Hanley, 67 Park Place, Pawtucket.

JOHN EDWARD O'NEIL '23, in Narragansett, R. I., Nov. 6. A veteran advertising representative for the *Providence Journal Co.*, he was known to a host of

WILLIAM FARNHAM '99: He was a founder and first President of the Brown Engineering Association.

businessmen in the Metropolitan area. He handled all kinds of display advertising, and among his colleagues was considered a top "idea man" and copywriting member of the craft. He also had handled a large volume of real estate advertising and the ads of the Chinese restaurant community, whose members came to rely on him implicitly. At one time he was advertising representative for the old sepia rotogravure section of *The Providence Sunday Journal*. Phi Kappa. His brother is Joseph A. O'Neil '31, his son is John E. O'Neil, III, '53, and his widow is Rosemary M. O'Neil, Southwest Wind Acres, Old Pt. Judith Rd., Narragansett.

ARMANDO EMILIO BATASTINI '24, in Providence, Nov. 18. For the last 11 years, he had been employed by the State Department of Employment Security as a research and statistics analyst. He also had been employed as an engineer at Brown & Sharpe Manufacturing Co. and at Quonset Point Naval Air Station. In the 1930's he was Manager of the Biltmore Market, one of the largest grocery stores in Providence. Phi Kappa. His son is Armando E. Batastini, Jr., '54, 32 Lennon St., Providence 8.

LOUIS BERDANSKY '28, LL.B. St. Lawrence Law School '32, in New York City, Sept. 4. He was founder and President of the Berdell Travel Agency, Inc., N.Y.C., which he organized in 1945. After law school he was employed as a case worker with the Jewish Board of Guardians, a child care agency. Then he transferred to the Department of Welfare, and subsequently to the Na-

tional Refugee Service, where he did public relations and community service work, travelling all over the United States, Cuba, and Mexico. His widow is Augusta F. Berdansky, 29 E. 9th St., New York 3.

WILBUR ALFRED BROMAGE '30, in Barrington, R. I., Dec. 1. He was News Department Business Manager for the *Providence Journal-Bulletin*. For 22 years he had dealt with the business matters connected with the operation of the news department. Previously he had been a reporter and financial copy editor. Prior to joining the *Providence Journal-Bulletin* in 1928, he had been employed by the Bigelow Sanford Carpet Co. and as an insurance adjuster in Hartford. He was a member of the Newspaper Personnel Relations and New England Associated Press News Executives Associations. He was a former Vestryman of St. John's Episcopal Church. Kappa Sigma. His brothers (all Brown graduates) are: William '23, Edward '27, Howard '33, and Robert '36; his widow is Judith S. Bromage, 128 Ferry Lane, Barrington.

CHARLES RICHARD BURKE, A.M. '32, near St. Louis, Oct. 18. He was a sales representative of Control Data Corp., and a former Faculty member at William Jewell College. He was a Navy LTCD during World War II. His widow is Mary L. Burke, 516 Forest, Liberty, Mo.

WILLIAM WHITE PINKHAM '51, in Boston, Nov. 4. An Assistant Export Manager for Simplex Time Recorder Co. in Gardner, Mass., he was the great-grandson of Lydia E. Pinkham, who founded the world famous Lynn patent medicine company. He also had been associated with export trading for Panama. During World War II, he served with the U.S. Air Force in Iceland. Members of his family who have been connected with Brown are his father, Daniel R. Pinkham '21, his mother, the former Olive White Pinkham, Pembroke '18, his brother, Christopher C. Pinkham '52, and numerous uncles and cousins. Nancy D. Pinkham, 93 Prospect St., Gardner, Mass., is his widow.

RICHARD LEO FRANK '57 in Philadelphia, Oct. 9. He had been a packaging engineer for Container Corporation of America in Oaks, Pa., since his release as a Sgt. from the U.S. Army in 1960. Lambda Chi Alpha. His brother is William E. Frank '58, and his widow is Ellen O. Frank, c/o Francis L. O'Hare, 65 Dean St., Mansfield, Mass.

ROBERT SAMUEL KRAUSKOPF '58, in San Francisco, Nov. 2. He was Editor of the *San Francisco Progress*. After graduate work in journalism at Northwestern University, in 1959 he joined the Henry F. Budde Publications, publishers of the *Progress*. His parents are Mr. and Mrs. Robert M. Krauskopf, 413 F. Apple Tree Rd., Milwaukee 17.
